TREASURER,
BENJAMIN B. FRENCH, Washington, D. C.

SECRETARY,
BEN. PERLEY POORE, near Newburyport, Mass.

LOCAL SECRETARY,
CHARLES KENNICOTT, Sandoral, Illinois.

SUPERINTENDENT OF THE FAIR AND LOCAL AGENT,
COL. HORACE CAPRON of Aiden, McHenry County, Illinois.
OPERATIONS OF THE UNITED STATES AGRICULTURAL SOCIETY.

The Journal of Agriculture is published quarterly, and mailed free of charge to Honorary, Life, and Annual Members of the Society. Gentlemen not connected with the Society, who may desire to receive it, are invited to enrol themselves as Members. Life Members receive an elegant Diploma, all the publications of the Society, free tickets of admission to all exhibitions, and their share of such seeds and cuttings as may be procured for distribution, without any additional assessment or payment beyond the admission fee of ten dollars. Annual Members receive the publications of the Society, paying a fee of two dollars. County or town societies have the privilege of making their President, Secretary, or Treasurer ex-officio a Life Member, in which case the society will receive the publications, &c. Remittances for membership can be made by mail, to Hon. B. B. French, Treasurer U. S. Agricultural Society, Washington, D. C.

A Secretary's Office, Library, and Reading Room has been established at No. 356 Pennsylvania Avenue, Washington City, where the members of the Society, and others interested in agricultural improvement meet as brothers at a common home, and find a collection of objects in which they have a common interest. Many State and County societies have contributed their published transactions, premium-lists, the names of their officers, and other information, which has been duly registered, and they have received the publications of the Society in return. A majority of the agricultural and numerous other publishers have contributed their periodicals and newspapers, and thus aided in forming a Free Agricultural Library at the National Metropolis. Donations of models, specimens of fertilizers, and engravings of cattle or agricultural implements, are also solicited.

Annual Exhibitions.—These have been held at Springfield, Mass.; Springfield, Ohio; Boston, Mass.; Philadelphia, Pa.; Louisville, Ky., and Richmond, Va., each exhibition distinguished by some national feature. They have been self-sustaining, the receipts meeting the disbursements of upwards of one hundred and twelve thousand dollars for premiums and expenses; and they have not only increased the efficiency of State and Local Associations, but have called together larger assemblages of people than have ever been convened upon other occasions, embracing not only our most intelligent yeomanry, but gentlemen of every art and profession from every portion of the widespread Union, evincing that the national pulse beats in unison with our own, and that the public voice is responsive to the call.

Annual Meetings.—Seven of these have been held at Washington city, and they constitute in reality the central "Board of Agriculture," recommended by the Farmer of Mount Vernon. Gentlemen from almost every State in the Union, (many of them delegates from Agricultural Associations,) have annually assembled to discuss such topics as have been presented, calculated to advance the cause of agricultural improvement; interesting and valuable lectures have been delivered by practical and scientific farmers; reports have been submitted by committees specially appointed to examine new inventions and theories, and by delegates who have been accredited to the agriculturists of other lands; and there has been a general interchange of opinion.

The United States Agricultural Society was founded in June, 1859, by a national Agricultural Convention, (called by the direction of twelve State Agricultural Associations,) at which there were present one hundred and fifty-two delegates, representing twenty-three States and Territories. It has since been in active operation, receiving the confidence, patronage, and favor of American agriculturists, and co-operating with State and Local Associations. If it has not accomplished all which its founders anticipated, or which its present officers desire, it has furnished pleasing evidence of its growing prosperity and usefulness. All who wish to aid in awakening an extended and general interest in the cultivation of the soil, are respectfully invited to enrol their names with those who have founded this National Agricultural Organization, and who desire to make it worthy of the great interest upon which the prosperity and happiness of our country is dependant.

Washington, D. C., July, 1859.
SECOND EDITION.

PREMIUM LIST AND REGULATIONS

OF THE

SEVENTH ANNUAL EXHIBITION

OF THE

United States Agricultural Society.

AT CHICAGO, ILLINOIS,

September 12th, 13th, 14th, 15th, 16th, and 17th, 1859.

The Seventh Annual Exhibition of the United States Agricultural Society, will be held on the spacious grounds fitted up for the occasion at Cottage Grove, in the environs of Chicago, Illinois, on Monday the 12th of September, Tuesday, the 13th, Wednesday, the 14th, Thursday, the 15th, Friday, the 16th, and Saturday, the 17th.

ENTRIES.—Persons intending to exhibit must become annual members of the Society, and their entries should be made on or before Monday, September 12th, at noon. Notices of intention to enter can be sent to the Superintendent of the Exhibition or the Secretary, by mail, and such notices will be registered according to the date of their reception. The Entry books will be opened at the Secretary’s office, Chicago, on the 5th of September, after which each exhibitor will be furnished with cards, designating the class and number of his entry or entries.

No article or animal can be entered except by the bona fide owner or his authorized agent, and any person who may enter an article or animal belonging to another person, without authority so to do, will forfeit all claim to any premium awarded, and be precluded from competing at any future exhibition of the Society.

Exhibitors are warned that the government of the Society have voted to strictly enforce the regulation by which, “when there is but one exhibitor, although he may show several animals or articles in the same class-division, only one premium will be
awarded, to be first or otherwise, as the merits of the animal or article may be adjudged." Entries must specify the exhibitor's name and post-office address, and the age of the animal offered. Any fictitious entries, will subject the participants in the fraud to forfeiture of premiums awarded, and they will be precluded from competition at any future exhibition of the Society.

Should Judges not be satisfied as to the regularity of the entries in their respective classes, they will apply to the Secretary for information; and should there still be any doubt, after examination, or, if any animal or article is of such a character as not to be entitled to exhibition in competition, they will report the facts to the Secretary, for the consideration of the Executive Committee, that such course may be adopted as the case may require.

No exhibitor or exhibitor's agent can act as Judge on the class in which he exhibits. And, during the examination by the Judges, if any person interferes with them, by letter or otherwise, he will be excluded from the competition. But exhibitors, when requested, are expected to make verbal or written statements concerning their contributions. Such statements, if of interest, will be published.

Premiums will not be paid on animals or articles removed from the Exhibition, unless such removal has the special approval of the Executive Committee; and Premiums not claimed within thirty days after the award, will be considered as forfeited.

The Treasurer will pay Premiums at the business office, on the ground, during the last day, and at the office in Chicago, during the week following; or will forward any Premium not so paid, in such manner as the person entitled to the same may direct. Silver Plate of equal value, if preferred, will be given in place of any cash premium, with a suitable inscription. The Medals, (which are struck at the U. S. Mint at Philadelphia), will be ready for delivery at the annual meeting of the United States Agricultural Society, at Washington, in January, and can be easily forwarded by Members of Congress, or by express, to those who cannot attend in person.

Discretionary Premiums, Diplomas, and Medals, will be awarded by the Executive Committee, should objects of special interest, not provided for in any of the classes, be presented. All instruments, machines, utensils, and apparatus intended to be used in the preparation, culture, or seeding of the soil;—in the harvesting, transportation, or manufacture of produce;—or in the various requirements of agriculture;—or in promoting the comfort of agriculturists and of their families, will be admitted to the Exhibition.

Sales may be made by Exhibitors at any time during the Fair, under such regulation as the Superintendent may hereafter prescribe, but the articles sold shall not be removed without the authority of the Executive Committee. Sales by auction must
be made by an appointed auctioneer, at such time and under such regulations as the Superintendent may prescribe.

Exhibitors must place their animals or articles under the direction and control of the Superintendent of the Exhibition, but the Society will not be responsible for any damage that may occur. The Executive Committee invite especial attention to the various Regulations inserted in this Premium List, which will be strictly enforced, as will such Regulations as may hereafter be promulgated by the Superintendent of the Exhibition.

Exhibitors must also see to the delivery of their articles or animals upon the grounds, give them their personal attention during the Exhibition, and attend to their removal afterwards; the Society cannot, in any case, make provision for their transportation, or be subjected to any expense therefor, either in their delivery at, or return from the grounds; but all the expenses connected therewith must, as heretofore, be provided for by the exhibitors.

S U P E R I N T E N D E N T S.

The Superintendents are required to take particular charge of all matters in their respective departments, and see that they are properly arranged for easy approach and examination.

They will also see that horses and cattle are provided with halters, by their owners, and suitably arranged for exhibition each day, and notify exhibitors to be in readiness for exhibition.

T H E J U D G E S.

The Judges are requested to report themselves at the business office of the Society, on the grounds, where cards of admission, etc., will be furnished to them.

Vacancies will be filled by the Executive Committee at 9 A.M., of each day, when the books of entries will be delivered. The exhibition in the cattle rings or on the track will take place punctually at the hour specified in the programme.

The Judges will report not only the animals and articles entitled to premiums, but also those next in merit, in each class, to meet the contingency of any objection which may arise to the awards, and also that they may receive suitable commendation. Any animal or article which, in the opinion of the Judges, deserves special commendation, will be so reported to the Executive Committee.

Judges are particularly requested to hand their reports in to the Secretary as soon as their decision is made, and make their reports as full as time and circumstances will permit.

E X H I B I T O R S.

Halls commensurate for the accommodation and proper display of the anticipated amount of machinery, mechanical products, mill fabrics, etc., will be provided.
A substantial and spacious hall, with the motive power of two large engines, with shafting, pulleys, etc., etc., will be furnished for the display and accommodation of all machinery requiring that kind of power.

Splendid halls, for the display of fruits, flowers and fine arts are being erected, in which contributions will be appropriately and tastefully arranged, under the superintendence of experienced and practical professional horticulturists, florists and gardeners.

A sufficient number of stalls and pens have been erected for the accommodation of all the horses, cattle, sheep, hogs and all farm stock which may be on exhibition.

Complimentary tickets are not transferable, nor are the badges or tickets of the Judges.

No checks will be given at the gates; parties going out will have to pay on their return, unless they have a free pass.

Ample police force will be employed upon and around the grounds to preserve order, and no disorderly conduct of any kind will be permitted.

The Presidents of all Agricultural and Mechanical associations, and the members of the Press, generally, throughout the Union, are respectfully invited to attend the exhibition.

FOOD FOR THE STOCK.

Hay and straw will be furnished free of charge. Grain of all kinds, together with green corn, will be supplied, tickets for which may be procured at the proper office, on application by the exhibitors, for which they will be charged at the cost, to be settled for before the stock is removed from the grounds.

WATER.

Hydrants furnishing an adequate supply of pure water for stock and other purposes, and ice water for drinking, will be supplied without charge.

DIRECTORIES.

Pamphlets will be issued on the 13th, to be procured at the entrance gates, in which will be registered all articles and stock on exhibition, in their respective classes, corresponding to their entry, and the number attached to each article or animal, with the name of contributor and animal or article, etc., etc. Daily posters, newspapers, etc., will be printed and distributed on the grounds, containing full information and plain directions upon all matters concerning the Fair.

REFRESHMENTS.

Refreshments will be furnished by competent caterers on the field, at the established rate of fifty cents for the first class meals, and twenty-five cents for the second class. Ices, fruits, etc., etc., will also be abundantly supplied by the best confectioners, and
every accommodation for those who have stock, etc., etc., on exhibition, and who may desire to remain over night upon the ground.

THE PRESS.

For the convenience of editors and reporters for the press, suitable accommodations will be provided, and every facility for obtaining and transmitting information will be afforded them. They are requested to announce themselves on arrival, present their names and credentials to the clerk at the business office of the society, who will issue to them cards of admission to the Fair grounds, etc., and introduce them to the Executive Board of the Society.

GUESTS.

The invited guests of the Society will please report themselves on their arrival to the Executive Committee, at the Tremont House, or at the business office of the Society, upon the Fair grounds, where they will be furnished cards of admission and every attention given them by the committee of reception.

PRICES OF ADMISSION.

The charges of admission to the grounds will be as follows:

Single admission to the grounds, 25 cents.
Children under ten years, 15 cents.

No season tickets will be issued except to members.

Members fees, $2.00
Fees for life-membership, 10.00

VEHICLES, ETC.

For a two horse vehicle and driver, 75 cents.
For a buggy and driver, 75 cents.
For a horse and rider, 75 cents.

Each occupant of carriage, other than the driver, 25 cents.

All carriages and horses to be kept in motion in the carriage-way except when within the ring.

The Main Entrances will be on the East side, but a private Carriage Entrance has been provided on the West Side, for those desiring to avoid the crowd and dust of the Main Entrance, for which privilege 50 cents additional will be charged.

RAILROAD REGULATIONS.

The following arrangements have been made in regard to transportation of visitors, and stock or other articles for exhibition at this Fair:

The Illinois Central, Chicago, Burlington & Quincy, Chicago & Galena, Chicago & Milwaukee, Chicago & Rock Island, Mississippi & Missouri and Bureau Valley, Chicago & Northwestern (late St. Paul & Fond du Lac), Racine & Mississippi (a new direct route between Chicago & Freeport, enabling visitors to attend both the State and National Fairs), Peoria & Oquawka,
Iowa & Nebraska, Cincinnati, Hamilton & Dayton, Cincinnati & Lexington, Dayton & Lima, and Pittsburgh & Fort Wayne Railroads, will carry stock and other articles free, and all except the Pittsburgh & Fort Wayne road will carry visitors at half the usual fare. The Pittsburgh & Fort Wayne will carry passengers at a deduction of 40 per cent, from the usual rates. The Michigan Southern and Michigan Central will carry passengers and freight at half the usual rates. The Baltimore & Ohio road will carry stock etc., at half the usual rates.

The above is subject to the following conditions and regulations:

Full pay will be required for tickets going to the Fair and these tickets, stamped by the Recording Secretary, will be good for the return trip.

The freight of stock and other articles over the roads to the Fair must be pre-paid. On the return of the same property, with a certificate on the original freight bill, stamped by the Recording Secretary of the Society, stating that the same was exhibited at the National Fair, the freight money will be refunded.

A week's notice should be given by owners of stock and other heavy articles intended for exhibition at the Fair, to the officers at the station where they design to ship.

The half-fare tickets to exhibitors at the Fair, and the arrangements for transporting stock and other articles for exhibition, will commence on Wednesday, September 7th.

 Articles for exhibition may be consigned to "Col. Horace Capron, Superintendent National Fair, Chicago, Ill.," freight and expenses pre-paid. The owner, or his agent, must attend to placing the same on exhibition.

**TELEGRAPH OFFICE.**

A Telegraph Office, with two batteries, furnishing connections with all the lines in Chicago, has been located in the Editorial Hall, and will be put in operation on Wednesday, September 7th, the week previous to the Fair.

**ACCOMMODATIONS FOR VISITORS, ETC.**

The subscribers, keepers of public houses, boarding houses and lodging houses, in Chicago, pledge themselves, severally to the United States Agricultural Society, that they will not charge for board and lodging, *per day and night*, during the week of the National Fair, in September next, more than the amount set opposite their respective names, being the usual charges:

Besides carriages and omnibusses, a double-track horse railway will carry visitors to the entrance gates for five cents, while steamboats will land them within thirty rods of the grounds for ten cents, and trains will be run on the I. C. R. R., carrying passengers at the same rate.

A fine band of music will be in constant attendance. The exhibition will be opened by a grand procession of officers, military, etc. Interesting meetings for discussion will be held every evening on the grounds and in the city. The annual address will be delivered by a gentleman of national reputation.

Many private dwellings will be thrown open, and provision will be made for free lodging room in the city, and dry camping grounds at Cottage Grove—in short, every care will be taken to make visitors comfortable. Police regulations will be strictly enforced.

SPECIAL PREMIUMS.

In addition to the $15,000 in premiums offered by the Society, Volunteer Premiums by the Board of Trade, Audubon Club, citizens of Chicago, and others, have been already offered, and others are making up, which will be advertised as soon as completed.

CATTLE DEPARTMENT.

SUPERINTENDENT, HON. JAMES N. BROWN,

(Ex-President Illinois State Agricultural Society, Sangamon County, Ill.)

[Regard will be had to the purity of blood, as established by pedigree, symmetry, size, and general characteristics of the several breeds of animals; and the Judges will make proper allowance for age, feeding and other circumstances. They are expressly required not to give encouragement to over-fed animals, in the breeding classes. Exhibitors of Thorough-bred stock will be required to furnish detailed pedigrees of the animals to be exhibited, in writing, at the time of making their entries. The standard authority in all cases of pedigree of cattle, will be the English and American Herd Books. Exhibitors must come prepared to have their cattle led into the ring when directed to do so by the Su-
perintendent of the Exhibition, precisely at the time specified, and animals not so brought forward will (unless for some good reason approved by the Executive Committee,) be ruled out of competition.

Class 1.—The Herd Premiums.

Class 80.—Dairy Products.
[Exhibitors must file verified statements with the Secretary before the 13th of September, showing that they manufactured the articles entered, and owned the dairies from which the same were made. Competitors for premiums for butter must also state in writing when the butter was made; the number of cows kept on the farm, the mode of keeping; the treatment of the cream and milk before churning, winter and summer; the method of freeing the butter from the milk; the quantity and kind of salt used; whether saltpetre or any other substance has been employed; also whether in the use of any variety of salt, injurious results have occurred; if so, the variety and where manufactured. Competitors for premiums on cheese must also state in writing where and when the cheese was made; the number of cows kept, the treatment of milk, the kind of rennet used; how the curd was broken, scalded, and separated from the whey; the quantity and kind of salt used, how pressed and how dressed.
Unless these statements are made, Exhibitors will be excluded from competition.

Twenty-five lbs. of butter made in May or June—1st premium, $20

HORTICULTURAL AND POMOLOGICAL DEPARTMENT.

SUPERINTENDENT, C. R. OVERMAN,
(President Illinois State Horticultural Society.)

[All fruits, flowers and plants offered in competition for premiums, must have been grown by the competitor, and any one who may offer for premium what has been grown by another person, will thereby forfeit all claim to any premium offered by the Society, at this or any future exhibition. The Professional List includes all more or less engaged in the cultivation of trees, &c., for sale. Specimens offered in competition for any premium can not be offered for another. Judges will withhold awards where articles of sufficient merit are not offered. Exhibitors will be required to arrange their specimens as the Superintendent may direct, nor can they remove them until after two o'clock in the afternoon of Friday.]
### Class 81.—Apples, Pears, Peaches and Plums.—Professional Exhibitors.

For the largest and best collection of apples, not less than 30 named varieties, not less than three specimens of each, 50 20
do best 20 varieties of six specimens each, 20 10

AGRICULTURAL MACHINE AND IMPLEMENT DEPARTMENT.
SUPERINTENDENT, HON. H. C. JOHNS,
(Ex-President Illinois State Agricultural Society.)

[Exhibitors of machines and implements will make all necessary arrangements for the test trials, when practicable; the United States Agricultural Society having declared, in 1857, "that for the awards upon the comparative excellence of competing machines, to be of real practical benefit to manufacturers, and more especially to farmers themselves, they should be made only upon the results obtained by thorough working-trial of the same." In no case will a premium be granted to an implement on exhibition if it be not worthy of such distinction, although it may not have competitors; and in all cases the preference shall be given to those which perform their proposed labor with the greatest reference to economy. The object of Exhibitions and Trials being to show the working qualities, and not the ornamental appearance of machines, it is desirable and expected that the competing articles shall not be of better quality than the average stock on sale at the warehouse; and if manufacturers desire to exhibit great excellence of workmanship and adornment in their implements, they are requested likewise to enter one of the average excellence, with the price of the same attached. Each exhibitor should prepare, in writing or print, a condensed and lucid statement of the superiority claimed by him for his implement over others of a similar nature, which should be given to the chairman of the jury of awards in his Class, and he should be prepared to exhibit and explain the several points, if so requested. By so doing, the labor of the jury will be much lightened, and the inventor or manufacturer be enabled to secure a complete attention to the important features of his machine or implement.]

Class 94.—A substitute for the Plow.

For that machine which shall supercede the Plow, as now used, and accomplish the most thorough disintegration of the soil, with the greatest economy of labor, power, time, and money, the Grand Gold Medal of Honor.

[This is the largest and most valuable gold medal awarded by any Agricultural Association in the world. Four have been]
offered, and awarded, and as only one is to be given each year, the value is greater than if several were awarded at each Exhibition.]

COMMITTEE.

[Statements of crops must be forwarded (free of expense) to the office of the United States Agricultural Society, at Washington, before the 15th day of December 1859, accompanied by not less than five pounds weight, and accompanied by the following statements: 1.—Locality of the land, kind and condition of the soil, crops raised the two preceding years, quantity and kind of manure used. 2.—Manner of preparing the land, quantity and quality of manure applied, and how applied. 3.—Quantity and kind of seed, when and how sown or planted. 4.—The time and
manner of cultivating, harvesting and preparing the crop for market, with the actual yield by weight or measure, where the crop was sold, if disposed of, and its market value. 5.—A detailed account of the expense of cultivation. These statements must be thus verified:

 County, ss.—A. B., being duly sworn, says, he is a surveyor; that he surveyed with chain and compass the land upon which C. D. raised a crop of the last season, and that the land was in one contiguous piece, and that the quantity is acres, and no more.

 A. B., Surveyor.

 Sworn to before me, this day of 185.

 County, ss.—C. D., being duly sworn, says, that he raised a crop of the past season upon the land surveyed by A. B., and that the quantity of raised thereon was legal; and that the statement annexed, subscribed by this deponent, as to the manner of cultivation, expense, &c., is in all respects true, to the best of his knowledge and belief; and that the sample sent to the Society is a fair average sample of the whole crop.

 C. D.

 Sworn to before me, this day of 185.

 It must be borne in mind that these premiums are offered only for crops raised without unusual manuring or cultivation.

 COMMITTEE.

 Frederick Smyth, ............................................................... New Hampshire.
 A. J. Green, ............................................................... South Carolina.
 George W. Lyman, .......................................................... Massachusetts.
 B. B. French, ............................................................... Dist. of Columbia.
 S. B. Chandler, ............................................................. Illinois.

 Class 126.—Accounts of Experiments.

 For an account of the best and most thorough experiments made in draining land on one estate, showing the methods pursued, the improvements resulting therefrom, with a full detail of constructions, with the attendant expense, verified in a form for publication, Diploma of Honor and Silver Medal.

 For second best, do do Bronze do

 For an account of the best and most thorough experiments made in the irrigation of land on one estate, giving a statement of the manner of using the water; how applied, at what times and how long; the expense attending it; the increased crops, if any; and full details of the whole process, in preparing the fixtures and channels for the water; and if the same is used on hoed or grain crops as well as grass lands; a particular detail of the methods employed to use the water when needed, and to free the land from the same, Diploma of Honor and Silver Medal.

 For second best, do do Bronze do.
For an account of the best and most thorough experiments on
one estate (dating back at least five years), in raising fruit trees,
giving detailed accounts of the preparation and condition of
the land, the varieties of fruit and how planted, the manner of
cultivation, and the present condition of the orchard,
Diploma of Honor, and Silver Medal.
For the second best, do do Bronze do
For an account of the best and most thorough experiments on one
estate (dating back at least five years), in raising forest trees,
giving detailed accounts of the preparation and condition of
the land, the varieties of trees and how planted, the manner of
cultivation, and the present condition of the plantation,
Diploma of Honor, and Silver Medal.
For the second best, do do Bronze do
For an account of the best and most thorough experiments by
one person in domesticating and raising fish, showing their
natural habits, food, haunts and feeding-grounds, with the best
means of their propagation, increase and cultivation,
Diploma of Honor and Silver Medal.
For the second best, do do Bronze do

COMMITTEE.
Josiah W. Ware, .............................................. Virginia.
Luther Tucker, ................................................ New York.
Henry F. French, ................................................ New Hampshire.

Class 127.—Essays.

[Essays must be sent in to the Secretary, at Washington, D. C.,
before the 15th of December, 1859, and the name of the author
must accompany his Essay, sealed up in an envelope, and not to
be opened unless a premium is awarded to the writer. It is
desirable that in writing Essays only one side of the paper be
used. No Essay will be entitled to a premium, unless it shall be
considered by the committee to be of sufficient advantage to
entitle it to a place in the transactions of the Society. It is ex-
pected that the essays will be founded mainly (and on scientific
subjects, at least partly,) on the writer’s practical experience and
personal observation or investigation; and when other authori-
ties are quoted, distinct reference must be made. The award of
superiority to any one Essay over others on the same subject, will
be made in reference to its probable greater utility to agricultu-
ral improvement, as well as to the ability with which the subject
is treated. In matters designed to instruct or to guide practical
labors, clearness and fulness of details will be deemed a high
claim to merit, and next conciseness. Nothing necessary for in-
struction should be omitted without injury to the value of the
instruction.]
A Diploma of Honor and a Silver Medal for each best Essay on the following subjects, viz:

1. Agricultural Education, including the details of a system for an Agricultural College and Experimental Farm.

2. The best proportions between the value of land and other capital, and between the amount invested in the different departments of a farm, viz: land, labor, stock, implements and manures.

3. Meteorology, in reference to its connection with droughts and floods, with suggestions for anticipating them and guarding against their effects.

4. Concentrated manures, in reference to economy, improvement of land, injurious tendencies, preparation, application, &c.,

5. Depth of culture for different soils.

6. On the development of latent properties in soils.

7. New Crops, with their relative profits and the extent to which they should be cultivated.

8. On Agricultural Exhibitions, and how they should be conducted.

9. On Insects injurious to vegetation, in any State.
