Till the Dark Mere of Locmarioqier

Turns to the sun in the Ultimate Year,

Ultimate ever,

These, the known faces and names, shall remain,

Shining, untouched by the loss or the gain,

Treasured forever.
WOMAN'S BUILDING
MEMORIAL STADIUM
AUDITORIUM
Here they come—there they go—
The first and last of the circus show—

Clowns come singing in the street,
Then the trumpets, then the drums,
After them ten thousand feet
Shake the town, and the blue sky hums
Like a sounding-board as the bright array

Tunes its voice to the singing whip
That knows a song of a darker day,
And the last sea shore, and the ultimate ship.
A democracy, in order to perpetuate itself and thrive, must provide equal opportunity for all of its members to improve themselves that they may better serve it. Therefore, our Country, through its Commonwealths, is devoting much of its resources to the education of its youth.

The University of Illinois, as part of the educational system of the State, is maintained primarily to educate, for the public service in a large sense, those who come to it. Whatever personal success you attain in your individual callings will contribute, directly or indirectly, to the public welfare. One of the finest ideals that a university trained man or woman can have is a sense of duty to the public in return for the opportunities it has given him for self-improvement.

IT IS a pleasure indeed to bring to you greetings from the University Board of Trustees and to felicitate you for the opportunity that is yours to secure an education at our great University.

In our effort to promote the good name and welfare of the University we rely upon you now as students to do your part, and also later when you have joined the ranks of our alumni. The rapid progress that has been made by the University of Illinois, I am certain, is due in a large measure to the army of fine young men and women of whom our student body and alumni are composed.

JAMES W. ARMSTRONG

President, Board of Trustees
THE COLLEGE
OF
LIBERAL ARTS AND
SCIENCES

KENDRIC CHARLES BABCOCK, Dean of the College of Liberal Arts and Sciences, was born in South Brookfield, New York, on September 8, 1864. He studied at the University of Minnesota and at Harvard, completing his work there in 1896. On leaving Harvard, he became an assistant professor at the University of California. This position he left to accept the presidency of the University of Arizona in 1903. From 1910 to April, 1913, he served as a specialist in higher education in the United States Bureau of Education, accepting his present position at the end of that time.

THE College of Liberal Arts and Sciences was founded in 1913 by the union of the former College of Liberal Arts with the contemporary College of Science. Since that time the Colleges of Commerce and Education and the School of Journalism have arisen from former departments of this College. It is still much the largest of the Colleges, not only in the number of its students, but also in the size of its faculty. Its nineteen separate departments and its affiliation with the other Colleges and Schools of the University offer the student a general education.

The College offers special curricula in Chemistry and in Chemical Engineering, as well as pre-professional courses in preparation for journalism, law, and medicine. The College provides, moreover, instruction in its several departments for students registered in other Colleges and the Graduate School to such an extent that it may well be considered the general service College of the University.

DEAN KENDRIC C. BABCOCK

Chemistry Building
THE COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION

Charles Manfred Thompson, ’09, Dean of the College of Commerce and Director of the Bureau of Business Research, was born in Fairfield, Illinois, on November 10, 1877. On completing his undergraduate work here, he went to Harvard University, where he studied in 1901-02, returning to the University of Illinois in 1911 as an assistant in history. He continued his graduate work here, receiving his Ph.D. in 1913. Since that time he has been serving continuously on the faculty, accepting his present position in 1919.

The aim of the College of Commerce is to develop power in sound thinking rather than facility in technique. The College is not interested in teaching students how to sharpen their business tools; it is interested, however, in teaching them how to make tools when, after they leave College, they meet up with tasks for which they have no tools.

To put the matter in yet another way, the aim of the College of Commerce is to give its students a liberal education with a bias toward business. This it does by requiring them to major in economics, accounting, business administration, and business law, by offering a variety of subject groups from which students may select according to their individual needs, and by permitting a rather liberal choice of elective courses.
THE COLLEGE OF ENGINEERING

Milo Smith Ketchum, '95, Dean of the College of Engineering, was born in Burnt, Illinois, on January 26, 1872. Since finishing his undergraduate work, he has been constantly connected with universities, except for two brief periods. In 1897-9 he served as bridge and structural engineer for the Gillett-Hersch Manufacturing Company, and in 1903-4 was with the American Bridge Company in Kansas City. Before assuming his present position in 1922, he served in similar capacities at the University of Colorado from 1905 to 1919, and at the University of Pennsylvania from 1919 to 1922.

The College of Engineering has ten departments of instruction and offers fourteen specialized curricula. No institution in America has done more to promote research in engineering science than the University of Illinois. Wherever engineering is practiced, the Engineering Experiment Station is known for its valuable contributions to knowledge. The Station has published 188 bulletins and 17 circulars. Numerous manuscripts presenting the recent results of investigations have been accepted for publication. Over eighty investigations are in progress at the present time, the completion of some of which will be of tremendous importance to members of the engineering industries.
THE COLLEGE OF AGRICULTURE

Herbert Windsor Mumford, Dean of the College of Agriculture, was born in Moscow, Michigan, on February 26, 1871. He received his education at the Michigan Agricultural College, from which he was graduated in 1891, and from which the honorary degree of Doctor of Agriculture was conferreed upon him in 1927. Returning to his alma mater in 1895, he served as an instructor and assistant in the Agricultural Experiment Station, attaining his full professorship in 1899. In 1901 he became Professor of Animal Husbandry at the University of Illinois, and since that time has been here continuously, serving in his present capacity since 1922.

Very large part of the population of Illinois lives in what may properly be called a rural environment. It is the duty and privilege of the College of Agriculture to train men and women for successful achievement in such an environment.

It is the aim of the College to make available to its students, through systematic instruction, the discoveries of science and the experiences of the best farmers of all time. Through experiment, investigation and research the Agricultural Experiment Station is constantly discovering new knowledge which is put into teachable form for the benefit of students and farmers.

The College is also interested and primarily concerned with the training of men and women who, because of their education, will be able and willing to render a greater service to the world.

Old Agriculture Building
THE COLLEGE OF LAW

Albert James Harno, Dean of the College of Law, was born in Holabird, South Dakota, on January 30, 1889. He graduated from Dakota Wesleyan University in 1911, and three years later received his LL.B., magna cum laude, at Yale University. He practiced in Los Angeles until 1917, when he became Dean and Professor at Washburn College of Law in Topeka, Kansas. In 1919 he went to the University of Kansas as Professor of Law. He has served here as Professor of Law since 1921, and as Dean since 1922.

THE College of Law was established in 1897. Since that time important changes have taken place in the field of legal education. With these the College has kept pace. During the last thirty years there has been a constant movement toward increased admission requirements to the study of law. This College has adopted the high standard of admitting only those students who are graduates of colleges of approved standing and seniors in this University who are permitted to elect law courses toward their degrees. The primary aim of the College is to educate students through serious professional work for the practice of law. To that end it seeks to promote legal scholarship, to develop professional character, and to inspire an appreciation of the duties and responsibilities of a lawyer as a member of society.
THE COLLEGE OF EDUCATION

Charles Ernest Chadsey, Dean of the College of Education, was born in Nebraska City, Nebraska, on October 15, 1870. He studied at Leland Stanford University and later at Columbia University, where he finished in 1897. In 1907 he became Superintendent of Public Schools in Denver. In 1912 he accepted the same position in Detroit, and in March, 1919, became Superintendent of the Public Schools of Chicago. He left Chicago later in the same year to accept his present position.

THE College of Education has as its special function the training of individuals expecting to go into some kind of professional educational work. The types of educational work especially emphasized are High School Teaching, Supervision, and Educational Administration. While many types of educational preparation must include graduate study, the fundamental courses for the more advanced work are offered by the College of Education. Curricula are offered leading to the degrees of Bachelor of Science, in General Education, Physical Education and Athletic Coaching, Agricultural Education, Industrial Education, and Music Education.

University High School
THE SCHOOL OF MUSIC

Frederic Benjamin Stiven, Director of the School of Music, was born on July 17, 1882, at Ionia, Michigan. He received his B.Mus. at Oberlin College in 1907, and for two years remained there as an instructor in organ. From 1909 to 1911 he studied in Paris under Alexander Guilmant and Charles Marie Widor. He returned to Oberlin in 1911 as a Professor of Organ and held that position until 1921, when he became Professor of Music and Director of the School of Music at the University of Illinois.

THE School of Music occupies Smith Memorial Hall, the erection of which was made possible through generous gifts to the University by Captain Thomas J. Smith. The building contains, besides the studios, classrooms and offices, some fifty practice rooms, and a Recital Hall seating over a thousand people. The equipment includes sixteen grand pianos, forty upright pianos, four two-manual practice organs, and a large three-manual organ built by the Skinner Company of Boston.

The students enrolled in the School of Music follow a prescribed curriculum which includes four years' work in a major applied music subject; four years of a minor applied music subject; complete courses in Theory and History of Music; and various academic required and elective subjects.

Most of the musical activities on the campus are sponsored by the School of Music. It contributes in many ways to the cultural life of the University, and stands ready to serve any who are interested in the art.
THE UNIVERSITY LIBRARY

Phineas Lawrence Windsor, Director of the University Library and the Library School, has spent twenty-eight years in library work. He was graduated from Northwestern University in 1895, and studied at the New York State Library School from 1897 to 1898. On leaving there he began his active work as assistant in the New York State Library, but changed to the Copyright Office of the Library of Congress in 1900. In 1903 he became Librarian of the University of Texas, serving there until 1909, when he accepted his present position.

DIRECTOR PHINEAS L. WINDSOR

The University Library not only supplies many volumes for class use by our large number of students, but also gives to our graduate students and to members of the faculty the use of the uncommon or rare books so often required in their advanced work. There is no large Reference Library in our immediate neighborhood, consequently we must provide in our own library all the printed resources that we need. The library staff organizes our more than 700,000 volumes for effective use.

The Library School is a professional school for the training of librarians, and admits only college graduates to its curriculum. Students come to it from every part of the country and occasionally from foreign countries, and its graduates are in libraries similarly located. The number, resources, and educational value of libraries in America are steadily increasing and this condition creates an increased demand for college trained librarians.
THE GRADUATE SCHOOL

ARTHUR H. DANIELS, Dean of the Graduate School, was born in East Medway, Massachusetts, on October 10, 1865. After receiving his Ph.D. from Clark University in 1893 he came to the University of Illinois as an instructor in philosophy. For two years previous to Dean Babcock’s arrival in 1913 he was Acting Dean of the College of Liberal Arts and Sciences. Since 1923 he has been connected with the office of the Dean of the Graduate School, being Assistant Dean for one year, Acting Dean for two years, and Dean since 1927.

THE Graduate School represents the organized efforts and resources of the University for the purpose of giving opportunities for the most advanced study and for the promotion of research. These two functions, however, are by no means separate, for the spirit of research is the life of graduate study. The ideal of graduate work is one and the same for all graduate students. Some are fitting themselves for higher teaching and administrative positions. Others are looking forward to careers in the fields of business, industry, engineering and the several professions. But it is the purpose of the Graduate School to train all in the methods and the use of the materials of their subjects so that they may become, not only experts and authorities, but also independent workers in their chosen fields.

Lincoln Hall.
THE SCHOOL OF PHARMACY

William Baker Day, Dean of the School of Pharmacy, was born in Peru, Illinois, on February 15, 1871. He attended the Chicago College of Pharmacy, where he received his Ph.G. in 1892. Since that time he has been constantly on the faculty of the School of Pharmacy. He served as an instructor until 1900, when he became a Professor of Histological Botany and in 1915 Professor of Botany and Materia Medica. He served as Acting Dean from 1914 to 1919, when he assumed his present position.

DEAN WILLIAM B. DAY

The students and faculty of the School of Pharmacy are greatly pleased with the facilities afforded by the new building. The well-lighted laboratories, the library with twice the seating capacity of the old, and the corridors connecting the new building with the old make the whole a comfortable and convenient working quarters. The three-year course is now in full operation and the enrollment shows an increase over last year and is the largest in the history of the school.

The aim of the school is to prepare young men and women for the practice of pharmacy as retail pharmacists or for positions in pharmaceutical laboratories. The school is not only the largest in the west in point of attendance, but its graduates are found in responsible positions in every part of the country.
THE COLLEGE OF MEDICINE

DAVID JOHN DAVIS, Dean of the College of Medicine, was born in Racine, Wisconsin, on August 10, 1875. He studied first at the Racine Academy and later at the Universities of Wisconsin, Vienna, and Freiberg, and at Rush Medical College. He served in the capacity of Pathologist at St. Luke's Hospital in 1911-13, and became a Professor of Pathology and Bacteriology at the College of Medicine in 1913. He has written several treatises on Bacteriology and is the author of other medical papers. He began serving first as Acting Dean in April, 1925, and succeeded to the Deanship in September, 1925.

NO DOUBT the most outstanding recent feature in the work of the College of Medicine was the opening of the new Research and Educational Hospital in 1925. During the past year the work has speedily progressed, and at the present time, 150 patients are housed here. Practically all departments are now organized, and active teaching and research is going on in connection with the medical school. This hospital has furnished something that the College of Medicine has never had before, namely, hospital patients absolutely controlled so far as their medical service is concerned, thereby providing for the study of cases in a way that is not possible in the ordinary private or semi-public institutions.
THE COLLEGE
OF
DENTISTRY

FREDERICK B. NOYES was born in Chicago, on August 22, 1872. He was graduated from Beloit Academy in 1885 and received the degree of Bachelor of Arts from Johns Hopkins University in 1893, and that of Doctor of Dental Surgery in 1895 at Northwestern University. He began practicing dentistry in Chicago in 1895; since 1909 he has specialized in Orthodontia. From 1897 to 1913 Dr. Noyes was Professor of Histology in Northwestern University Dental School. In 1914 he became Head of the Department of Histology and Orthodontia in the University of Illinois College of Dentistry and served in that capacity until 1926, when he succeeded to the Deanship of the College of Dentistry.

THE newest departure in the College of Dentistry is the establishment of extension courses which enable the practicing dentist to keep in touch with contemporary developments in his profession. Two groups of courses are available. The first group consists of courses offered by each of the principal departments, covering both the theoretical and clinical aspects of the particular phase of the work presented. To these courses graduate dentists are eligible.

The education of the public to appreciate the value of the Children’s Clinic has required only a short time. Established five years ago it has reached the limit of its capacity, and throughout each year there is an extensive waiting list.
THE SCHOOL
OF
JOURNALISM

Lawrence William Murphy, Acting Director of the School of Journalism, was born in Madison, Wisconsin, on October 18, 1893. He received his B.A. degree from the University of Wisconsin and his M.A. degree from the University of North Dakota, and has done advanced graduate work at the Universities of Wisconsin and Illinois. Prior to coming to Illinois in 1924 he was engaged in the practice of journalism, military service, and the teaching of journalism. He was formerly Head of the Department of Journalism at the University of North Dakota.

The School of Journalism is an outgrowth of instruction in journalism begun at the University in 1902. A four-year curriculum was outlined in 1905 and the professional program has developed since that time. The work is now organized on a junior-senior-graduate basis leading to distinct degrees. Freshmen and sophomores have an opportunity to register in a pre-journalism course within the College of Liberal Arts and Sciences.

The purpose of the School is to give students seeking preparation for journalism and publication work the advantages of both a general and specialized education. During the freshman and sophomore years in the pre-journalism course the emphasis is placed on general and cultural studies, and during the years in the School of Journalism the emphasis is placed on journalism, social sciences, literature and similar subjects that play an important part in journalistic work.
ADMINISTRATIVE OFFICERS OF THE UNIVERSITY

Lloyd Morey
J. F. Wright
Thomas Arkle Clark, '00, Dean of Men, was born in Minook, Illinois, on May 11, 1882, and studied at the Universities of Illinois, Chicago, and Harvard. He has been Dean of Men here since 1902, and his work has gained him national recognition as an authority on all phases of a university man's life. During the twenty-eight years of his service he has probably been guide, counselor, and friend to more young men than any other man in the country.

OFFICE OF THE DEAN OF MEN

The Office of the Dean of Men has been organized for more than twenty-five years. Its purpose has been to concern itself with the problems of individual men. As time has gone on the work of the office has widened. At the present time there are four men who devote from six to eight hours a day, six days in a week, to individual students. These are Dean Thomas Arkle Clark, Mr. Fred H. Turner, Assistant Dean of Men; Mr. George Herbert Smith, Assistant Dean of Men for Freshmen and Foreign Students. For the first semester, Mr. Rolla A. Davis has been in charge of student organizations and activities. He has been succeeded the second semester by Mr. George B. Elliott. Dean Clark gives his time primarily to those students who wish to see him personally.

Better scholarship, better living conditions, wider opportunities for work, and stronger characters are the things for which the office works.
Miss Maria Leonard, Dean of Women, was born in Indianapolis, Indiana. She was graduated from Butler College in 1906 and received her M.A. at Colorado College in 1910. Since that time she has been constantly engaged in Dean's work, having served as Dean of Women at Idaho Normal School from 1910 to 1912, at Coe College, Iowa, from 1912 to 1923, and at the University of Illinois since 1923.

OFFICE OF THE DEAN OF WOMEN

University women call at the office of the Dean of Women at any hour of the school day to discuss matters of personal, group or campus needs. The questions range from social and financial needs to those of scholastic interest. Personal contact is thus secured through many interviews with students, house-mothers and parents, by the Dean of Women and her two assistants. Its purpose is to secure wholesome and healthful living conditions for Illinois women, more genuine interest in and incentives for high scholarship, and natural means of developing intellectually, socially, and spiritually.

The whole organization of the Office of the Dean of Women seeks to serve the needs of the individual student, the group, and the campus in general.
Here they come—there they go—
The first and last of the circus show—

Lug the water and wet your feet
And fill the tub till your back is bent;
You'll sit proud in a grandstand seat
While lazier lads creep under the tent.
This is the day of days for you;
The jubilee spirit has seized the town!
There are things you must some day do,
But this is enough now. Laugh, you clown!
ILLINI ACHIEVEMENT
Illini Achievement

For those outstanding discoveries and accomplishments in the field of science, and to those distinguished men of the university, who, unbeknown to the masses, have labored for years in bringing forth and perfecting those additions to the sum of society's knowledge, these few pages of Illini Achievement are dedicated. There are many more whose work has brought honor to the university and to themselves, whom the 1930 Illio would like to give recognition, but the limits of space allow only a meager beginning toward the acknowledgment of the work of these grand men. Their discoveries and achievements have merited international recognition and honor. Their labors have been unselfish, for the cause of society. May the 1930 Illio, in honoring the work, which constitutes a portion of the contribution of the University of Illinois to the progress of knowledge and civilization and to the alleviation of human suffering, have made a brilliant gesture in offering the tribute of the undergraduate body to these men.
ENGINEERING

Internationally known for his investigations in a half dozen engineering fields, Professor A. N. Talbot, as professor emeritus of mechanical and structural engineering, ranks as one of the "grand old men" of the University's faculty and alumni body. In spite of his so-called retirement, he is active daily in his investigational work. Particularly noteworthy are his discoveries concerning railroad track stresses, concrete construction, and structural materials—discoveries which have won him worldwide recognition in engineering circles. His book, "The Railway Translation Spring," is accepted as standard everywhere and his data on locomotives and railway track has been widely used by designers. Frequently he has been called upon to give advice regarding some major engineering activity, examples being his work on plans for a bridge across San Francisco bay and his investigation of engineering instruction at the U. S. Naval Academy at Annapolis. Professor Talbot joined the University faculty in 1875. He has been honored with international awards for his research work and is a member of a dozen engineering societies.

ILLINI - OF ACHIEVEMENT

No small part of the improved efficiency and safety of railroad equipment during the last twenty years may be attributed to Professor E. C. Schmidt, head of the department of railway engineering and national authority on locomotive performance, train resistance, train rating, and railway management. At the same time, the investigations, conducted at the University by Professor Schmidt, have had a marked influence on car wheel design. Professor Schmidt first came to the University in 1897, but has been absent for several short periods since doing practical work in the commercial engineering field. During the World War, he was called upon to organize a campaign for the conservation of freight fuel and directed the fact ing. Professor Schmidt has distinguished himself through his work in designing building engines, boilers, pumps, turbines, gas engines, and equipment for electric power plants, street railways, and gas works.

A pioneer in testing the fatigue of metals, Professor H. F. Moore, eminent professor of engineering materials, is known all over the world for his testing laboratory research and his inventions which have made possible the measurement of minute changes in a material's form as well as the determination of its strength under stress. Since coming to the University in 1897, Professor Moore's work in the Engineering Experiment station, recorded in the station's bulletins, has been acclaimed internationally by engineering engineers. Having been a member of the U. S. Naval Consulting board, and he has since been associated with the work of the N. S. Bureau of Standards. In addition to his field of research, Professor Moore has distin guished himself by his investigations of the fabrication of bronze, strength of built-up structures, and the inventions for the materials testing field. He is a member of the National Research council, the British Institute of Metals, past president of the American Society for Testing Materials, and other national engineering organizations.
AGRICULTURE

HERBERT WESSELMeyer, Dean and Director of the College of Agriculture and the Agricultural Experiment Station, is recognized as one of the leaders in research in the country. He was one of the first to recognize the importance of marketing studies in experimental station work and advocated the use of marketing teachers in the marketing work in standardizing market classes and grades. His leadership in the development of the Livestock Marketing Committee of Eastern Canada, which has in turn led to the formation of similar committees in other countries, is a notable achievement. He has also been active in the development of the American Section of the Livestock Marketing Committee of Eastern Canada.

DEAN HERBERT W. MUMFORD

WILLIAM L. BURLESON, professor and chair in crop production and head of the Department of Agriculture, was born in Rockwell, Arkansas. He was educated at the University of Arkansas. He has served as a member of the Arkansas Agricultural and Mechanical College with the degree of Bachelor of Science in 1903 and three years later received the degree of Master of Science from the University of Colorado. In 1919 he received the degree of Doctor of Philosophy upon his appointment as associate in crop production at the University. Through a series of promotions he rose to professor of crop production in 1928 and in 1932 became administrative head of the Department of Agriculture.

ILLINOIS ACHIEVEMENT

JOSEPH COLUEN, dean was born in Tron, Nova Scotia, 1874; he was graduated from the Providential College of Agriculture, Tron, in 1892, and later attended Cornell University for four years before coming to the University of Illinois in 1898. He received the honorary degree of Doctor of Science in Agriculture from Iowa Agricultural College in 1904, and the degree of Doctor of Science from Waseca College, Waseca, Minn., in 1915.

When Professor Blair came to the University he was one of the two staff members of the Department of Horticulture, the other being the late Dr. J. T. Barrett. He has worked with an assistantship, his present position as professor, and is, head of the Department of Horticulture. Through his vision and leadership, he has built the most complete horticultural department in America, one well adapted to modern requirements.

The very early work of Blair and Barrett on the control of better and of apple scab as a landmark in the history of the department. Thirty-three years ago, Professor Blair inaugurated a long-time study program for testing methods of controlling important maladies and diseases. This project is still active and great progress has been made in this phase of control, as well as the development of disease resistant varieties of plants.

ROBERT GRAHAM, professor and chair in animal pathology, was born at Ames, Iowa, 1885. He received the degree of Doctor of Veterinary Medicine from Iowa State College in 1910 and two years later in the University of Kentucky. He has been associated with various schools in animal pathology of the State University of Kentucky since 1913 and is a member of the State Livestock Sanitary Board of Kentucky since 1915.

Professor Graham has been active in research on various problems, including the identification of a type of food poisoning in animals and the protection of a serum which he has used to combat it. His work on diphtheria and other infections has been made to aid in the treatment of human patients. Equally important has been the production of research work which has been conducted by Professor Graham and his associates, and in cooperation with other institutions, to study the factors involved in the transmission of diseases to other animals, and the prevention of the development of certain diseases. His work on the transmission of diseases to other animals, and the prevention of the development of certain diseases, has been of great importance in the field of animal pathology and public health.
CHEMISTRY

ROGER ADAMS, Ph.D., head of the department of Chemistry and professor of organic chemistry, is one of the nation's foremost scientists in his field. Aside from his administrative duties which take a large portion of his time, Professor Adams has contributed largely to the research glory of the University. Years ago he perfected Pareylene, a substitute for cotton used in medical work. It not only defends the tissue instantly but, and this is its real contribution, it is non-habit forming. It is estimated that yearly half a million people which have not passed the six months stage can be cured by modern use of chaulmoogra oil. Professor Adams has produced a synthetic compound similar to the beneficial element in chaulmoogra oil. His product is being used clinically in the great Philippine leprosy colony with encouraging results.

Many other achievements of Dr. Adams are highly important, but are not so widely known because they do not bind themselves to general public interest.

ILLINI OF ACHIEVEMENT

If it had not been for Illinois, the University of Illinois would have become internationally known through the discovery of Illinium and Red Copper. Dr. R. S. Hopkins, Ph.D., D.Sc., Professor of Inorganic Chemistry, discovered the former. The only chemical element to be brought to light in the western hemisphere, its discovery was immediately heralded throughout the world as one of the great scientific achievements of the present era. Rather than let others name this rare earth element after its discoverer as a mark of honor, Professor Hopkins within two or three days after his work was made known to the public, announced that it would be named Illinium in honor of the State and the University.

The discovery of Illinium followed years and years of painstaking research and although its discovery had been practically certain long before its public announcement, Dr. Hopkins refused to allow anything to be said until he had proof which could not possibly be contradicted.

Dr. G. L. Clark, professor of chemistry, is a pioneer in the application of the X-ray to the solution of industrial problems. During the past two years, he and his associates have been using the X-ray to discover hitherto unknown qualities or properties of some of industrial materials in order to utilize these more efficiently. Studies of commercial commodities like rubber, for example, have revealed valuable phenomena concerning its behavior during stretching and after compression changes. Metallic alloys, fibers, electric transformer plates, asbestos and innumerable paper, porcelain products, and some organic chemical substances among the materials studied during the last year by Professor Clark. The use of the X-ray is opening a new field in industry by aiding the production of more standardized materials, the utilization of hitherto neglected substances, and improvements in the quality and efficiency of manufactured articles in everyday use. Great industrial concern are realizing the value of the X-ray in solving these problems and now look to the University for the extension and development of the work which Professor Clark is carrying on.
MEDICINE

Dr. Julius H. Hess has been Professor and Head of the Department of Pediatrics at the College of Medicine of the University of Illinois for fifteen years. He is a member of the American College of Physicians. He has written many of the most authoritative papers in the field of Pediatrics. He has been active in many of the American and international medical organizations. His work has been recognized by numerous honors and awards. He is best known for his research on the treatment of infant feeding, and for his contributions to the understanding of infantile jaundice.

Dr. William F. Petersen has been Professor of Pathology and Bacteriology at the University of Illinois for ten years. He has been a leader in the field of medical research, and has made significant contributions to the understanding of infectious diseases. His work has been recognized by numerous awards and honors. He is best known for his research on the treatment of infectious diseases, and for his contributions to the understanding of the immune system.

ILLINI OF ACHIEVEMENT

Dr. Lloyd Arnold is Professor of Bacteriology and Hygiene in the College of Medicine. He has been active in the field of medical research, and has made significant contributions to the understanding of infectious diseases. His work has been recognized by numerous awards and honors. He is best known for his research on the treatment of infectious diseases, and for his contributions to the understanding of the immune system.

Dr. William H. Welker is Professor and Director of the work in Physiological Chemistry carried on in connection with the College of Medicine and Dentistry of the University of Illinois. He has been active in the field of medical research, and has made significant contributions to the understanding of the human body. His work has been recognized by numerous awards and honors. He is best known for his research on the treatment of infectious diseases, and for his contributions to the understanding of the immune system.
Here they come—there they go—
The first and last of the circus show—

These are things to remember always:
There will be time for the picture-show,
Time for the clasp of hands in hallways,
The thousand things of the life we know;
But circus faces and tents give way
To a silent field in the silent rain
These are the things we see today.
And they will not come back again.

Here they come—there they go—
The first and last of the circus show—

Gallant ladies with golden heels
Stamped on hearts for a year and a day
As the ladies bow with the swaying seals
To the song of trumpets dying away—
The color of all the show swirls by,
The slow dust settles to earth again,
We shiver a bit, and wonder why,
And scatter before the sudden rain.

The Chosen Few
FIFTEEN thousand persons attended the twenty-first annual Interscholastic circus held as the final event of two days' entertainment for the high school visitors. Theta Xi won first prize in Class A with its presentation of Dean Clark and the Devil, Theta Kappa Nu took top honors in Class B with the "Checker Championship," and R. H. Brantley was the prize winner in the individual clown performance. Mochon and Nebeck were the most successful in the doubles act.

T. J. Dolan
Manager
ONE national and five state records were broken, and two state records were tied, when Tilden high of Chicago won the thirty-fourth annual Interscholastic track and field meet which was held during May in the Stadium. Old marks in the 100- and 220-yard dashes, the mile run, shot put, pole vault, and half-mile relay were bettered, while the 440 and high hurdles marks were tied. Other schools following Tilden were: Urbana, Evanston, West Frankfort, Carbondale, Enfield, Hyde Park, and Oak Park.

J. H. Gonin
Manager

INTERSchOLASTIC TRACK MEET
Here they come—there they go—
The first and last of the circus show—

Strong man, giant of strength unended,
There will be sorrow when you pass by,
There will be pain for a heart so splendid,
Perhaps fair maidens to briefly cry.

Gallant, picturesque glorification
Of conscious strength and conscious skill,
For you are the horns blown, circus-fashion,
And yours is the echo over the hill.
THE year 1928 was a very satisfactory one from the standpoint of Illinois athletics, as we won more than our fair share of victories and championships.

The outstanding event of the year was from a spiritual standpoint rather than a material one. The adoption of the Illini Code of Sportsmanship, written and sponsored by the students of the University, was a most decided and satisfactory forward movement. It is deserving of perpetuation in the 1930 ILLIO, and it follows:

A TRUE ILLINI SPORTSMAN

1. Will consider all athletic opponents as guests and treat them with all of the courtesy due friends and guests.
2. Will accept all decisions of officials without question.
3. Will never hiss or boo a player or official.
4. Will never utter abusive or irritating remarks from the sideline.
5. Will applaud opponents who make good plays or show good sportsmanship.
6. Will never attempt to rattle an opposing player, such as the pitcher in a baseball game or a player attempting to make a free throw in a basketball game.
7. Will seek to win by fair and lawful means, according to the rules of the game.
8. Will love the game for its own sake and not for what winning may bring him.
9. Will "do unto others as he would have them do unto him."
10. Will "win without boasting and lose without excuses."

G. Huff
THE ATHLETIC COUNCIL of the University consists of fourteen members, they being the directors of physical welfare, three faculty members, three alumni members, and the student managers of football, baseball, track, intramural, interscholastic, and circus. The work of the Council deals with the election of managers and cheerleaders, the awarding of Varsity letters, and other matters dealing with athletics in the University.

UPON the cheerleader’s tact, performance, understanding of crowd and player psychology, and the way he organizes the junior and sophomore leaders under him, largely depends the reputation of the University for true sportsmanship as manifested in the reaction of the spectators, individually and as a whole. With the realization that it is only a minor part of the cheerleader’s job to keep the crowds yelling during athletic contests, and that proper leadership may sway thousands to a show of good sportsmanship in either defeat or victory, the athletic council selects the varsity cheerleader from competition.

JUNIOR CHEERLEADERS
CHAMPIONSHIPS

CONFERENCE champions in five sports, and the singles and doubles championship in tennis during the 1928-1929 Big Ten season have been the rewards sought and found by the University of Illinois athletic teams.

The Illini were crowned champions of the Big Ten in track for the 1928 outdoor season when they garnered 58½ points at the conference meet. Coach Bob Zuppke produced another championship football team that won games from Indiana, Northwestern, Chicago, and Ohio State, losing the only game to Michigan. The fencing and gymnast teams both won the Big Ten title by defeating all opponents and winning the conference meet. The water polo team, coached by Ed Manley, enjoyed its second successive Big Ten crown by defeating all conference foes.

Besides these honors, many Illini athletes gained individual titles in the conference meets of their respective sports held during the season.

RICHARD "DICK" FINN was the 1928 winner of the conference medal for athletic and scholastic proficiency, awarded last June. Finn was a valuable man on Coach Lundgren's baseball teams for three years, and was awarded the captaincy of the squad in his last year of Big Ten competition. In addition, Dick was elected to membership in Phi Beta Kappa.
FOOTBALL
COACH BOB ZUPPKE and his crew of “fightin’ Illini” turned the tables again and surprised the Western Conference by keeping the coveted championship lodged in Champaign-Urbana for another year. Entering the final game of the season in a three-way tie for second place, the Zupmen downed Ohio State, while Michigan beat Iowa, and up in the north country Minnesota defeated Wisconsin, holder of first place the entire season, thus giving Illinois a clear track for the title. It was a team that lacked individual stars and lost but one game the whole season. With a majority of the team returning to the field next fall and a host of new sophomore material, prospects for another good season are bright.

Varsity Football Squad
RESERVE GAMES

THE UNIVERSITY of Illinois Athletic Association, in keeping with the reserve team idea that was instituted in the Western conference last year, placed a reserve team on the field along with the regular Varsity competition.

The underlying principle of this new movement in Big Ten athletics is to provide for more competition among the institutions that make up the circuit. The schedule was so arranged that while the Varsity was away from home the reserves would play a game in the Stadium, and vice-versa.

The Illini reserve squad, made up of players that were not listed in the Varsity lineup during their games, played a six-game schedule that proved to be disastrous in the number of games won. At the end of the season, the Illini had won two, lost three and tied one game. Games were played with De Paul, the only non-conference foe, and Indiana, Northwestern, Wisconsin, Iowa, and Ohio State among the conference schools.

The reserve team movement has been favored by a number of the Big Ten schools and will probably become more popular in the future. Illinois not only maintained a reserve squad on the football field, but the athletic officials also scheduled reserve games in both baseball and basketball.

FRESHMAN VARSITY FOOTBALL SQUAD
STRATING out the season with a game that was marked by many substitutions by Coach Zuppke, Illinois tumbled Bradley, the "Little Nineteen" Conference Champions, by the large score of 33 to 6.

Taking advantage of an Illini fumble in the opening minutes of the game, Bradley tore through the Illinois defense for the first touchdown. Fumbles and penalties marred Illinois' chances to score during the remainder of the quarter.

In the second quarter Humbert, Timm, and Mills were inserted in the backfield, and then the scoring machine began to work. Starting from the 3-yard line a series of passes and plunges put the ball within scoring distance, and Fritz Humbert crashed over the line for a touchdown.

The second half saw the Illini playing a smooth game and out of danger. Humbert was high scorer with three touchdowns, one of them on a forward pass and running through a broken field 47 yards to the goal.

SWEEPING end runs, forward passes of all varieties, and line plunges gave the punch to a galloping Illinois eleven in the second non-conference game of the season when the Coe college football team suffered a 31 to 0 drubbing.

Frank Walker and "Tom Mix" Nickol skirted the Coe ends for long gains. Nickol, on the famous triple pass play, looked like the ghost of Red Grange, when he went down the sidelines on an end run of 80 yards for the first touchdown of the game.

To vary the attack, Ken Fields flung passes right and left to the Illini backfield men. Mills was on the receiving end of one of the long passes and raced down the turf 64 yards for another goal. Robinson and Humbert added their share of ball carrying and made good gains through the line.

ILLINOIS 13
INDIANA 7

ILLINOIS opened its conference season against the powerful Page-coached Indiana eleven, and scoring two touchdowns before the Hoosiers managed to get one, then staving off an Indiana rally which threatened to tie or even win the game, came out on the top side of a 13 to 7 score. It was Dad’s Day and thousands of Illinois dads saw the “fightin’ Illini” come through to victory.

The first quarter saw the Illini within scoring distance three times, but each time they failed. Then in the second quarter after the combined efforts of Mills, Timm, and Fields had worked the ball down the gridiron on a series of plays, big Fritz Humbert crashed over the line for a touchdown. In the third quarter on another concentrated drive and two large penalties against Indiana, Humbert again took the ball over the line.

In the last period, Bennett and an Indiana rally scored one goal, and the Hoosiers were fighting like mad on the path to another when the gun ended the game.

ILLINOIS 6
NORTHWESTERN 0

SIXTY thousand Homecoming fans flocked to Memorial Stadium to see Northwestern fall before their Alma Mater in a 6 to 0 defeat. It was a game packed with thrills galore and all kinds of football strategy and action.

Illinois scored early in the second quarter after a series of twists and line plunges by Humbert carried the ball to the Purple’s 23-yard line. From there Jud Timm shot around left end and then cut back and ploughed over the goal line for six points. Capt. Nowack failed to kick goal. Many passes were tried by both teams before the half ended.

The second half opened with both teams determined to fight to the finish. Timm’s fumble on the kickoff paved the way for a Wildcat score, but the Illini held. Then Illinois marched down the field only to meet a Purple wall that held near the goal line. In the first half, Illinois gained 153 yards on a running attack while Northwestern lost 19.

THE lowly Wolverines, stung by four successive losses, realized that they were playing a championship eleven, and consequently the Illini suffered a small but stinging defeat at their hands, 3 to 0.

Early in the first quarter Michigan intercepted an Illinois pass, and after working the ball down to Illinois' 15-yard line, Gembis place-kicked goal. The remainder of the half saw no large gains by either team.

The Illini looked more like their former selves in the third quarter, and an intercepted Michigan pass carried the ball into Wolverine territory. Then "Frosty" Peters tried a drop-kick from the 40-yard line, but the pigskin hit the cross bar and bounced back. He tried another in the closing minutes of the game but it went wide. The statistics show that the "Flying Dutchmen" were outplayed throughout the game.

In the third and last non-conference game of the season Illinois dedicated Butler University's new bowl by defeating Potsy Clark's Butler eleven on a rain-soaked sod to the tune of 14 to 0.

Because of the condition of the field open play was impossible, so it was a battle of straight football. Passes and long runs were conspicuous by their absence. The scoring started near the beginning of the second quarter when Olaf Robinson went over for a touchdown after the ball had been worked down to the one-yard line. The advance was made by Robinson, Peters, and Nickol.

The second touchdown came in the last quarter as a result of a pass, Peters to Walker, which was caught over the goal line. This ended a drive down the field featured by the twisting, dodging and running of "Chuck" Hall. Butler was unable to penetrate the stalwart Illini line for any large gains.

COACH BOB ZUPPKE'S Illinois gridmen found a soggy Stagg field much to their liking and performed like thoroughbreds to completely rout the discouraged Maroons, 40 to 0.

"Frosty" Peters engineered the job as quarterback of the Illini wrecking crew. Walker opened the scoring in the first quarter and netted a touchdown after a twisting, dodging run of 55 yards. Early in the second quarter, Peters, on a quarterback sneak, made 8 yards for a goal. Mills, on a punt, got away for a 70-yard run and scored.

The last half was featured by passes and brilliant interference by the line. Frank Walker made two touchdowns, one on a pass, and another around the left end. Peters scored the last goal on another quarterback sneak. Capt. Nowack made good four out of five tries for the extra point.

Illinois ........ 7 14 6 13—40
Chicago .......... 0 0 0—0
THE defeat of the Ohio State football team, 8 to 0, netted Illinois her second consecutive Conference Championship. Minnesota helped by defeating the hitherto unbeaten Wisconsin eleven, and Michigan waylaid Iowa, the other contender.

Illinois took advantage of a break in the first quarter and both Lou Gordon and Russ Crane saw a brilliant opportunity to help win the game when they tackled Eby behind his goal line for a safety. Peters scored the only touchdown on one of his quarterback sneaks after a 40-yard drive down the field featured by three passes and heavy line plunging by Fritz Humbert.

The Buckeyes fought hard, for they were intent on keeping the Illini from another championship. In the last quarter Ohio tried line plunges, but those failing, they went over to the aerial route. The Zupmen were not to be cheated out of the title, and after Ohio made 60 yards on passes, Mills intercepted Holman's next long pass as the game ended.

BASKETBALL
WHEN Coach Craig Ruby issued his first call of the basketball season, prospects for a good year were bright. Five lettermen from the 1928 squad returned. Captain Ernie Dorn, Johnny How, Kes Deimling, Doug Mills, and Drew were on hand for the first day’s practice. Players from a good freshman squad the year before were also counted upon to aid in the Big Ten title race. Then there were other men who had seen some action throughout the season last year but who had not earned their letter.

After the first four non-conference games against reputed teams, the hopes for a title quintet were raised still another notch as the team played bang-up ball in the quartet of games. The Illini cagemen rolled up impressive high scores over their first two opponents, Bradley and Lombard. The vagabond North Dakota five were beaten by one point in a thrilling game, and Washington U. was defeated in the last non-conference game.

The conference season started with Illinois losing the opener to a superior Purdue quintet. Indiana was played the next night and lost to the Illini. However, a stumbling block was encountered on the first road trip, and the Illini five lost badly to both Ohio State and Michigan. A victory over Chicago was registered in the last game of the first semester.

The second semester opened with a loss to Butler. Chicago and Minnesota were met in the next two games, and both suffered defeat at the hands of the Illini. Ohio State also won the return game, but Illinois managed to give the champion Michigan five a severe jolt in the next game. Indiana took revenge for her earlier defeat and handed Ruby’s boys a 10-point drubbing, and in the next to the last game Purdue repeated her earlier performance and snowed the Illini under with an avalanche of baskets, led by big Murphy.

Illinois won the final game from Minnesota on the home floor.

THE basketball season opened for Illinois with an impressive 46-29 victory over the Bradley cagers in the New Gymnasium. Coach Craig Ruby gave his entire team a workout in this game, using twelve men during the contest. Captain Dorn paced his mates to victory with six field goals and two free throws. The Illini doubled the score on Lombard in the second game and won, 44 to 22. Harper found things to his liking and when the game ended he had 15 points to his credit.

In a game packed with thrills to the last minute, the Illini downed the vagabond North Dakota five, 28 to 27. With a few seconds left to play and the Nomads in the lead, “Bug” Harper tore down the sidelines, arched a long shot toward the netting, and followed it in and shot again from the corner just as the gun sounded. How and Harper shared scoring honors with nine points each.

The Illinois team won its last non-conference game from Washington U. by a score of 38 to 29. A tricky offense and good basket shooting were responsible for the victory. Ernie Dorn had his weather eye peeled for the hoop and garnered five field goals and five free throws, a total of fifteen points before the final gun.
PURDUE, one of the co-champions of the conference last year, was the opponent in the conference opener. Inability to hit the net in the early stages of the game, Murphy's height, and Harmeson's scoring spree mid-way through the second half, proved too big a handicap for the Illini to overcome, and Purdue won, 33-24. Johnny How managed to elude the Purdue guards long enough to garner five field goals, and Mills was second with three.

Playing a cool, deliberate game which froze any effort on the part of Indiana, Illinois defeated the other co-champions of the conference before a capacity crowd in the second conference game. It was a brilliant game of Ruby strategy and the Hoosiers were baffled right from the start.

Starting a rally in the second half with the score standing at 13 to 7 in favor of Ohio State, Ernie Dorn tried to lead his teammates to victory but was unsuccessful. The close guarding of the Buckeyes and the inability of the Illini to hit the net cost them the game.

The next night the Illini played a better game against Michigan but were unable to penetrate the Wolverine's defense and were beaten, 21 to 17. Ernie Dorn was the star of the tilt and also high scorer.
THE next game, with Chicago, was conspicuous by the inability of both teams to find the basket, but Illinois managed to hit it more times than the Maroons, and finally won the game. Foul cards were numerous, and before the game was over, Dorn found himself out of the tilt with four personals against him.

The Illini five started out the second semester with a 33 to 28 loss at the hands of Butler. The game was ragged and erratic throughout.

The team journeyed to Chicago to play the next game, and again won a victory over the Maroons. The game was a battle all the way through and only the spectacular floor work and shooting of How, who made eight field goals and three from the foul line and who repeatedly drew Chicago's defense out of position, won the game for the Illini.

The squad then went up to Minnesota and after piling up a large score in the early stages of the game, let the Gophers climb up to within three points, but won the game, 35 to 32.

In the return game with Ohio State, Illinois lost another five point game to the Buckeyes, this time 35 to 30. The Illini defense offered little resistance to the Ohio sharpshooters throughout the game, and the Buckeyes managed to get a goodly number of shots from inside the foul line. Dorn made high score.
THE championship hopes of Michigan were given a jolt in the New Gym on February 18 when Illinois won the game, 27-24. The Wolverines overhauled the Illini and tied the score at 20 all when the game ended. During the overtime, Harper sank the first goal to tally with Chapman's previous one. He sank another one from the center of the floor, and How made good his free throw. Mills then went the length of the floor to sink the last one.

Indiana avenged the defeat handed them earlier in the season and drubbed the Illini by a 32-22 score. The Illini led at the half, but the Hoosiers started the last frame with a burst of speed, and before the game was over handed Illinois a dose of its own medicine and kept up a fast passing game.

In the return game with Purdue, Illinois lost an uneventful, uninteresting game to the Boilermakers, 37 to 23. Harmeson led the scorers with eleven points, while "Stretch" Murphy had to be satisfied with only two baskets out of 18 attempts and five free throws. Johnny How led the Illini with three of each kind.

Illinois closed the conference season with a victory over Minnesota, 32 to 27. Dorn led the Illini in points, garnering two field shots and five from the foul line, while How was second. With the close of this game Illinois had to be content with a tie for fifth place with a .500 average.
COACH HARRY GILL sprung another surprise in the 1928 outdoor track season and the Illinois Varsity track squad won another title, but had to be content with second place in the Big Ten 1929 indoor meet after defeating Notre Dame and Iowa in dual contests.

Prominent throughout the 1928 season was Illinois' four-mile and two-mile relay teams. The four-mile team copped the event at the Kansas relays, and the two-mile crew were victorious in the Ohio relays. They also took first place in the Drake relays, and the distance medley relay team set a new Drake record in winning the event.

Dave Abbott enjoyed a splendid season as a member of the four-mile relay team, as a two-miler and in cross-country. He set a new Southern California outdoor record in the two-mile run and also established a new Big Ten record in the same event at the conference meet in Evanston. Dan Lyon continued his earned wins in the shot put and finally beat out all competitors for Big Ten honors at the meet. Bob Carr also did some nice work in the high jump, winning at California and also at the conference meet.

AFTER WINNING an indoor track meet over Iowa only the week before, the Illinois trackmen journeyed over to Iowa City to bring home another indoor conference championship, but the Hawks surprised the Big Ten and won the meet themselves. Iowa won three first places and enough places in the 70-yard high hurdles to count as a first. This is the first time in three successive conference meets that the Illini have not captured the title. Dave Abbott scored first in the two-mile, Captain Hal White and "Bo" Orlovich tied for first in the half-mile run, Harper and McDermont tied for third in the pole vault, and Sentman tied for second in the high jump. Bob Carr, another high jumper, was forced to keep out of the meet because of an injured ankle.

In the first dual meet of the season, Coach Harry Gill's team defeated Notre Dame in South Bend, 56 to 33. The Illini won seven of the ten events in addition to the mile relay. Judd Timm, running in the 60-yard dash, came in second, a foot behind Elder, who equalled the world's record for that event. Simon leaped to a new Notre Dame indoor record with a leap of 22 feet 9 inches. Other Illini leading the field in their events were: Carr and Leonard tied for first in the high jump, McDermont and Harper tied for first in the pole vault, Abbott won the two-mile run, and the mile relay team composed of Kelley, Stephan, Andrews, and Quigley took first place honors.
ILLINOIS WON the second dual meet from Iowa by the overwhelming score of 65½ to 38½. Three new indoor records were established by the Illini in this meet and one was tied. In the mile run, Stine clocked off the distance in 4:23.2, making a new Illinois indoor record. Cave established a new record when he ran the 75-yard low hurdles in 8.3 seconds. In the 880-yard run, Hal White set a new record by running the distance in 1:56.9.

Bob Rodgers, one of Coach Gill’s hurdlers, had a big moment when he tied the world’s record of 9.4 seconds in the 75-yard high hurdles. Sentman placed second in this event.

**Freshman Varsity Track Squad**

---

\[Image of the Varsity Track Squad\]
THE ILLINOIS track team triumphantly inaugurated the 1928 outdoor season by staging a brilliant victory over the University of Southern California track squad at Los Angeles by the small margin of two points; the score being 64 to 62 for the Illini when the final event was declared over and the points counted up. Sport writers of the central west and the far west conceded that California would win the meet, but they forgot they were dealing with Harry Gill, the successful Illini mentor.

The events were won in the manner in which critics thought they would be won, namely California winning the sprints, quarter mile, pole vault, both hurdles, and javelin throw, while Illinois took sweeps in the mile, two-mile, shot put, discus throw, and high jump. In the 880-yard run, Hal White and Bob Hamlett literally ran the legs off of Gloege, the greatest two-lapper in the west, forcing him into third place in the time of 1:55.8. Dave Abbott set a new Southern California record when he ran the two-mile distance in 9:35.8. Novak placed third. Dan Lyon captured first honors in both the discus throw and the shot put. Bob Carr came in first in the high jump at 5 feet 10 inches. In the mile run, Stine, McElwee, and Abbott all tied for first place.
ITH both the Kansas and Ohio relays scheduled for the same day, Coach Gill divided his team and sent some to each event. Over at Kansas the weather was cold and nothing startling in the way of establishing new records took place. The Illini fared pretty well at both relays. The four-mile relay team, composed of Novak, McElwee, Stine, and Abbott, won as was expected but the weather slowed up the time considerably. Other events were: the sprint relay quartet placed third; and Frank Simon placed fourth in the broad jump.

Over at the Ohio relays the two-mile relay team composed of Bunning, White, Hamlett, and Orlovich won the event in 8:22.5; the distance medley relay team placed second, and Carr tied for second in the high jump.

The Drake relays proved to be a different matter and the Illini came home with the lion’s share of the honors. The distance medley relay team with White, Chambers, Stine, and Abbott carrying the baton, set a new Drake record by winning in 10:24.5. The final results were: first place in the two- and four-mile relays; took first place medals for their section in the half-mile event; won their heat in the 440-yard relay; and third place in the second race of the one-mile relay.
In the special events, Barnes tied for first in the pole vault, Lyon got second in the shot and third in the discus, Carr and Miller tied for third in the high jump, Lee placed third in the hop, step, and jump, and Fairfield was fourth in the two-mile run. This made a total of four trophies and 31 medals.

In the only non-conference meet, the Illini swamped Notre Dame, 88 1/2 to 28 1/2. Three Notre Dame records were shattered when Dan Lyon heaved the shot for a distance of 47 feet, 6 1/2 inches and then he threw the discus 142 feet, 6 1/2 inches for another new record. Dave Abbott broke the previous field record in the two-mile run, setting up a new mark of 9:39 1/4.

Joe Simon tied the field broad jump record, leaping 23 feet, 1 1/2 inch. In the 120-yard low hurdles, Bob Rodgers tied the record set by Wynne in 1921. Stine won the mile run and Rodgers came in first in the 220-yard low hurdles. Gerard took first place in the javelin with a throw of 181 feet, 3 1/2 inches. In the pole vault, Barnes and Heinsen tied for first, while Carr, Miller, and Wachowski all tied for first in the high jump at 6 feet, 1 inch.
ILLINOIS kept up its habit of defeating Iowa, and downed the Hawkeyes in the third dual meet, 73 1/2 to 59 1/2. The race which proved the most satisfactory to the Illini was the victory of Rodgers over Cuhel in the 120-yard high hurdles. Cuhel broke the tape first but was disqualified for knocking down three of the hurdles. Abbott and Fairfield relinquished their 40-yard lead in the two-mile run and allowed Tockstein to break the tape first, thus assuring him of his letter.

In some of the other events, Lyon took first when he heaved the shot for a distance of 47 feet, 10 1/2 inches. Miller even surprised Coach Gill when he bested his teammate Carr in the high jump. Joe Simon won the broad jump, while Barnes, Heinsen, and White all tied in the pole vault at 11 feet, 6 inches.

Michigan provided the opposition in the last dual meet and were downed, 80 to 55. The Illini made grand slams in three events, taking all three places in the high jump, broad jump, and pole vault. One University record was tied when Hestor, Michigan star, ran the 110-yard dash in :9.8. Another University record was broken by Michigan when Cooper ran the 220-yard low hurdles in :23.5. Dave Abbott won his usual two-mile race and Hal White and Olsovich placed first and second in the 880-yard run.
TAKING four firsts, a tie for first, and a host of other places in eleven of the sixteen events, the Gill-coached Illinois track team won the twenty-eighth annual Western conference track and field meet by a score of 58 1/2 points, thirteen points ahead of Iowa, who came in second.

Dave Abbott, versatile Illini two-miler, broke the conference record that has existed in that event since 1922, when he ran the distance in 9:23.7. Abbott came in 80 yards ahead of Bullamore, of Wisconsin, second place winner. Joe Simon, Hal White, and Dan Lyon were the other first place winners. Simon won the broad-jump with a leap of 22 feet, 4 3/4 inches. Hal White ran the 880-yard run in 1:55.1 to chalk up another first for Illinois, and Dan Lyon heaved the shot 46 feet, 9 inches to capture the honors in that event.

The half-mile run was where Illinois practically won the meet. Gist of Chicago, and Martin of Purdue, both of whom have wonderful reputations for the run, elected to try in other events, and this may have aided the Illini, as Hal White won, with "Bo" Orlovich placing second, and Bob Hamlett came in fourth to add eleven more points to the total.

Bob Carr and Tom Miller tied for first in the high-jump after outclassing the other competitors for honors in that field. Barne, Earl White, Stine, Orlovich, and Rodgers were the second place winners for Illinois.

The broad-jump was also helpful. Joe Simon winning with "Greasy" Lee placing third, and Frank Simon taking fourth to add ten more to the total. Bob Rodgers placed second in the 120-yard high hurdles when Cuhel of Iowa was disqualified. In all, eighteen places were taken by sixteen Illinois trackmen.
STARTING out the season with a team that was made up of a number of veterans, the Illini harriers had a mediocre year. They won a triangular meet from Ohio State and Michigan, lost dual contests to Notre Dame and Iowa, and placed seventh in the conference meet at Madison.

Captain Dave Abbott had a remarkable season, coming in first place in every meet and also finishing first in the conference meet. He led the field from the very start of the contest and always had a good lead when he broke the tape. Abbott set a new Illinois record in the meet with Iowa when he ran the distance in 20:56.2.

Notre Dame was the first foe and the only non-conference competitor of the season. For the first time in three successive meets, the Irish managed to eke out a 27 to 28 win over the Illini. Abbott placed first, and other Illini harriers took third, sixth, eighth, and tenth places.

On the first Saturday in November, the Iowa harriers came to Champaign, and won from Illinois, 24 to 31, over a rain-soaked course. Although Abbott set a new course record, the Hawks took the next three places and managed to turn in the lowest score.

In the triangular meet with Ohio State and Michigan at Columbus, the Illini won the meet with a low score of 38. Dave Abbott placed first again as usual, and the other Illini to score were: Stine, fifth; Seldon, seventh; Novak, tenth, and Stalmaker, fifteenth.

The season was closed when the Illini placed seventh in the conference meet. Although Abbott led the field of 60 harriers for first place, the team was unable to take advantage of his place and finished seventh with 129 points. Indiana won the conference championship.
ONE world's record was broken and six new Carnival records were established when the class of middle west athletes, more than 839 from 79 universities, colleges, and high schools, hurled themselves against the marks of the past in the twelfth annual Illinois Indoor Relay Carnival held in the Armory on March 16.

The Illinois four-mile relay team again lowered the Carnival record for the event when White, Orlovich, Stine, and Abbott bettered the mark set by the Illini in 1928 by finishing in 17:53.3. The Gillmen also established a new record in the university two-mile relay when the team composed of Sanders, Stine, Orlovich, and White came in in 7:54.6, breaking the record held by Georgetown since 1925.

Chicago set a new American indoor, national collegiate indoor, and carnival record when they ran the University medley relay in 10:31.2, breaking the mark set by Illinois in 1928.

Simpson, Ohio State, won the 75-yard dash in 7.6. Elder, of Notre Dame, who established a new Carnival record last year, came in second.

Nebraska won the shuttle hurdles relay in 41.5. This is a new world's record as it is the first time this race has been run. Michigan State Normal medley relay team again captured the college medley relay event but failed to better their record of last year. Galesburg took first place in the high school one-mile relay but failed to better the record.

Lamont, of Michigan, ran the best time in the 1,000-yard run. Kansas State Teachers' College of Pittsburg, again won the college two-mile relay event, but lost the college one-mile relay crown, which they won last year, to De Pauw.
Tom Warne of Northwestern established a new world’s, American indoor, national collegiate, and Carnival record, when he cleared the bar in the pole vault at 13 feet, 7 3/4 inches, breaking the record made by Droegemueller last year.

Martin of Purdue established a new Carnival record in the 1,500-meter run, when he broke the tape in 4:15.1. The previous record was established in 1924.

Barney Berlinger of the University of Pennsylvania, a sophomore, broke a record that has been held by Norton of Georgetown since 1925 when he won the all-around championship with a score of 6,076 points. In winning, he tied for second in the 75-yard dash, won the shot put, tied for first in the high jump and pole vault, landed second in the broad jump, claimed a fifth in the hurdles, and placed last in the 880-yard run.

Illinois placed four men in the individual championship. Simon won the broad jump and Replogle placed third. McDermont placed third in the pole vault and Harper tied for fourth place with Soults of Iowa State. Rockaway of Ohio State outclassed all contenders in the 75-yard high hurdles. Cave, Illinois, ran the 75-yard low hurdles in the fastest time. Root, Chicago, made the best time in the 330-yard dash, and Patterson, Illinois, came in for second place honors. McIntosh, Monmouth, won the high jump with a leap of 6 feet, 2 3/4 inches.
SPRING—and along with it plenty of rain and cool weather—arrived early in the Twin Cities, and that cool weather and rain may have been one of the major reasons why the varsity baseball team ended up in eighth place in the final conference standing of the season. Due to the inclement weather, Coach Lundgren and his players were forced to abandon many valuable days of the training period due to the soggy condition of Illinois field and had to content themselves with swatting the ball around the Armory.

Six lettermen were on hand at the beginning of the season, which number raised the hopes that the Illini would have another championship team. Captain Dick Finn was back at his old position of shortstop. Bud Stewart and Don Andrews reported early and began warming up their pitching arms. Gundlach, Finn, and Glade looked like the best choice for infielders, while little Jimmy Lymperopoulos, a sophomore, was slated to play third base on the Illini nine. Sweeney was back for his old position at center field. O'Grady was used in the right field, while Ernie Dorn took care of the left garden for practically the entire season. Cann, Snyder, and Williams alternated behind the plate. Harrington was also used as a pitcher quite frequently during the season.

Bud Stewart, the ranking pitcher in the Big Ten last year, again baffled team after team with his variety of curves and drops. Taking little rest between encounters, Stewart was a big factor in guiding the Illini to victory. Andrews and Harrington were the reserve pitchers.

When the last game was played, Jack O'Grady led the batters in the conference season with a .357 average and was followed by Gundlach with a .348. Four Illini players ended the conference season with batting averages of over .300.

Junior Managers

Dean  Hildebrand
THIRTEEN HAPPY Illinois baseball players, their coaches, and a manager, boarded the Japan-bound ship at San Francisco on August 11, and on August 31 landed in Tokio, Japan, for a barnstorming tour of that nation to show the Nipponese people what American collegiate baseball is like.

The players to make the well-remembered trip were: Andrews, Bower, Harrington, and Mueller, pitchers; Snyder, catcher; Brown and Sweeney, outfield; Captain Finn, shortstop; O'Grady, first base; Shaw and Walker, second base; Lymperopoulos and Williams, third base; and manager, H. A. Boling.

One of the best records ever made by any American team in Japan was made by the Illini. En route to the coast, the squad played games at the following stops along the way: July 30, St. Paul; July 31, Jamestown, North Dakota; August 1, Billings, Montana; August 2, Helena, Montana; August 3, Missoula, Montana; August 4, Spokane, Washington; August 6, Yakima, Washington; August 7, Bellingham, Washington; August 8, 9, 10, Vancouver, British Columbia.

Illinois' chief opponent was Keio University, which arranged the trip and with which six games were played. Each team won two games, another was a tie, but the Illini won the sixth and deciding game. Lundy's boys defeated Meiji twice, broke even in two games with Waseda, and closed the visit with a victory over the Daimai newspaper team.

COACH CARL LUNDEGREN and his players are full of praise for the sportsmanship and hospitality of their Japanese hosts. At the opening game against Keio University, the rival teams paraded down the field to the tune of “Illinois Loyalty.” The Illini club of Japan also played a big part in entertaining their American guests.

This was Illinois’ first baseball invasion of Japan, but it is expected to arrange a trip every three or four years in the future. The scores were as follows:

FRESHMAN VARSITY BASEBALL SQUAD

ILLINOIS opened the southern baseball trip and the season against Mississippi in a ten-inning pitchers' battle with Bud Stewart on the mound for the Illini, and Illinois won, 2 to 1. Norm Gundlach's theft of home in the tenth and Glade's similar performance in the opening frame started them on the road to victory despite the four-hit hurling of the "Ole Miss" pitcher. Glade got three of the four hits and started things in the first with a single. Sweeney laid down a sacrifice bunt to send him to second, a passed ball letting him get to third. Walker struck out, and while Collier was winding up to pitch to Finn, Glade stole home and the catcher missed the throw. Gundlach got to first in the tenth on an overthrow, and made third on Cann's infield out. When he stole home, the "Ole Miss" catcher became excited and interfered with Stewart, who was at bat, and in the excitement, Gundlach made the plate safely.

In the next game with Mississippi A. & M., Harrington allowed only five hits and pitched a shutout game, the Illini winning, 1-0. Sweeney made the only run in the third inning.
MISSISSIPPI A. & M. took revenge in the third game and handed the Illini their first defeat, pounding Andrews and Mueller for 13 hits and winning the game, 10 to 2. The southerners cinched the game in the second inning, knocking Don Andrews out of the box and continuing the assault against Jerry Mueller to score seven times. It was an off day for Illinois all around. Sweeney and Finn scored the two Illinois runs in the fourth frame.

Journeying over to Alabama on April 4, Lundy’s nine had to satisfy themselves with a tie game with Alabama. Bud Stewart was on the mound and allowed only four hits. Glade got to first on balls, reaching second on Dorn’s sacrifice bunt, and scoring the lone tally on Waller’s triple in the first inning.

Alabama tied the Illini again the next day, this time each team garnering six runs. Andrews pitched a good game up to the eighth when he was pounded for four runs.

Ft. Benning was next on the schedule but rain cancelled the first game. A double header was played on April 7, and Illinois split even, Harrington losing the first when he allowed three runs in the last inning. Stewart pitched a three-hit, no-run game and Illinois won the second game of the double header, 1 to 0. Lymeropoulos scored the lone run in the third frame on a three bagger, and then Glade singled him home. The southern trip ended with a 7-4 victory over Kentucky.
OPENING the conference season against Purdue on Illinois field, Bud Stewart was in fine shape, the team played airtight ball behind him and the final result was a 5 to 0 shutout for Illinois. Only 30 men faced him in the nine innings, and of these, only two reached second base. Six Purdue errors were instrumental in letting the Illini gather their five runs, and they showed real ability to sock the ball, collecting eight hits off Maxton, the star Purdue hurler. Ira Sweeney was high scorer with two runs.

The second conference game, scheduled with Iowa, was cancelled because of rain, a double header to be played later. Butler next provided the Illini a little exercise in the form of a game that was won by Illinois, 14 to 1. The Bradley Polytechnic boys were next and offered little opposition, the Illini winning 14 to 0.

Michigan was to be the third Big Ten opponent but rain again interfered, a double header to be played later.
In what was finally the second conference game, the Illini again encountered Purdue, this time on the Boilermakers' diamond, and were the winners by a 5 to 4 score. Bud Stewart, after getting away to a wobbly start in the first two innings, allowed only three scattered hits the rest of the game. After trailing, the Illini came back in the fifth and scored on hits by O'Grady and Cann. In the sixth Stewart doubled and came home when Walker hit across the middle of first base. The winning run was scored in the seventh when O'Grady tripled with none gone and came in on Cann's infield out.

On April 28, Dick Finn and Jimmy Lymperopoulos led an Illini batting attack against the Gophers with three hits apiece, and were instrumental in defeating Minnesota 8 to 3. Harrington went in for Stewart in the third inning after the latter began to weaken, and went into the ninth frame before a base hit was made off his delivery. Dick Finn had high average for the day, with three hits and two runs to his credit in four times at bat.
Wisconsin came next on April 30, and managed to administer the first conference defeat to the Illini team. Bud Stewart pitched fine ball throughout the game but the infield blew up in the ninth and the Badgers managed to sneak through their five tallies in that fateful frame. The Illini scored their two runs in the fourth, Gundlach getting to third on O'Grady’s infield out and scoring on Dorn’s home run.

A two-game series was played with Ohio State on May 4 and 5, Illinois losing the first, 8 to 4, and redeeming themselves in the second with a 11 to 0 win. Stewart, the Illini ace, went great the first two frames, not allowing a single hit, but in the third two errors by Finn allowed three Buckeye runners to cross the plate. Glade scored twice, and Gundlach and Stewart each once for Illinois. In the second game of the series, Sweeney had a big day and garnered three runs. The Illini battered three Buckeye hurlers for a total of eleven hits and scored seven runs in the initial frame on five straight bingles, one a home run by Harrington with two on bases.
K EIO UNIVERSITY, of Tokio, Japan, came to Urbana on May 8 for a two-game series, the result being two victories for the Illini, winning the first game 8-0, and the second 2-1. The delayed double header with Michigan proved to be a stumbling block to Lundy's boys and they lost both games, 10 to 5 and 8 to 5. Three Illini hurlers were used in the first game, but the Wolverines bunched their hits in the first two innings for six runs. Stewart pitched good ball in the second game. It was a see-saw tilt up to the ninth, but Lange had to knock a homer that scored three Wolverines. With these two defeats went any remaining Illinois hopes for title honors.

Interscholastic week-end saw a double header with Iowa, and the Illini won one game, 4-0, and lost the other, 4-2. Gundlach, O'Grady, Cann, and Harrington brought in the Illini runs in the opening tilt. Stewart and Harrington pitched both games, and Harrington and Shaw brought in the two Illinois markers in the second contest.

In the next to the last game, Minnesota proved easy picking, and thirteen Illini along with eight Gopher errors provided the Illini with a 17 to 0 victory. Lymperopoulos crossed the plate four times and Shaw three.

Wisconsin battered three Illini pitchers to win the last game of the season by a 10 to 9 count. Seven runs in the last inning won the game for the Badgers.
MINOR SPORTS
COACH "HEK" KENNEY, in his first year as Varsity wrestling coach, followed in the footsteps of his teacher, Paul Prehn, and produced another good mat squad, although not winning the Big Ten championship again, the team made a very creditable showing in losing only one match the entire season. Four veterans returned as a nucleus for the 1929 mat team, but when the season opened Kenney had whipped together a formidable outfit that proved to be a title contender.

An impressive showing was made at the first appearance of the Varsity in a dual meet with Missouri at Columbia. Illinois won the meet, 19 to 9. Capt. Allie Morrison and Minot scored falls over their opponents. On January 20, the team journeyed to Wisconsin, and proceeded to hand the Badgers a severe 25 to 5 beating. Minot scored his second fall, and Bauerle, Morrison, Crane, Claypool, and Burdick won decisions.
Soon after the start of the second semester the team tackled the
strong University of West Virginia squad and emerged victors,
24 to 8. Minnesota invaded the Gym Annex for the next meet and met
the fate of the others, 27 to 3. Tonkoff and Wietz won their matches by
falls in a little over 7 minutes.

Traveling to Iowa City the following week-end, the Varsity defeated
the Hawks, 17 to 9. Allie Morrison did his bit, winning by a fall, while
Minot, Dooley, Claypool, and Wietz won by decisions.

Illinois earned the right to compete in the championship match with
Michigan by defeating Chicago by a 23 to 5 decision. The Illini lost
one match, and won the other seven, Tonkoff scoring a fall.

For the third consecutive season Illinois and Michigan met to settle
the championship of the Big Ten, and the Wolverines left the campus
with the title under their belt by a 15 to 11 score.

Wrestling in the Big Ten individual matches at Purdue, Sapora won
the conference 115-pound championship when he defeated Lafavour,
of Northwestern. George Minot was crowned Big Ten 135-pound class
champion when he won a decision over Jessup, of Indiana, in the final
round.
COACH CAHN'S Varsity tennis squad met five conference foes and were victorious over four during the 1928 season. They lost a chance at the Big Ten title when the Ohio State netmen defeated them on the Buckeye courts for the only loss of the season.

Winning four of the five singles matches and both of the doubles contests, the Illini opened the season with an impressive 6 to 1 victory over the Purdue tennis team. O'Connell, Bard, Braudt, and Thompson were victorious in the singles matches, and O'Connell paired with Braudt, and Bard teaming with Clark, were the winners of the doubles contests.

Ohio State handed the Illinois team their only defeat of the season by winning two of the doubles matches and three of the singles. O'Connell, Braudt, and Bard won in the singles, while O'Connell and Braudt won the only doubles match.
WITH the Buckeye defeat still smarting, the netmen journeyed to Ann Arbor and trounced the Big Ten champions by a 12 to 7 margin. Iowa came next, but somehow got the dates mixed and the match was forfeited to Illinois.

In the last game of the season, the Illini netmen defeated Minnesota, 7 to 2. Capt. O'Connell suffered the second defeat of his University career at the hands of Cornell, the Gopher captain. Illinois won the doubles contests and lost two singles matches.

For the third time in as many years, Capt. Tim O'Connell won the Big Ten singles championship by defeating William Budd, of Chicago, in straight sets, 7-5, 6-2, 6-0. O'Connell paired with Braundt brought the doubles championship to Illinois when they downed Nelson and Calohan, of Chicago, in the finals, 6-4, 6-1, 6-0.
THE ILLINOIS Varsity golf squad relinquished its claim to the Big Ten golf championship to Ohio State and the Illini quartet composed of Fish, Carter, Sutin, and White had to be content with third place honors.

The championship meet was played on the difficult Scioto country club course at Columbus, Ohio, and the Buckeye team took first place honors with a low score of 1,323 strokes. Illinois was third with 1,352 strokes. No Illinois golfers placed in the individual scoring.

In dual competition the Illini did not fare very well, winning on only two of five encounters with other conference foes. The dual meet season opened on April 14 and the result was a shutout victory for Illinois, Purdue being defeated by a 12 to 0 score.

After the good start against Purdue, the team, coached by Dave Swank, lost the next three consecutive Big Ten meets. Ohio State was the first, and the Buckeyes administered a 11 to 7 drubbing. Northwestern was next encountered and won by the small margin of one point. Michigan was the third in line and handed the Illini golfers a 15-3 beating.

On May 18 the Swankmen won their last game of the season from Chicago by a 14½ to 3½ score.
THE SECOND YEAR of Varsity soccer at Illinois showed great progress both in material and popularity. The team, in the opinion of outside critics, compared favorably with any other elevens in any section of the country.

Illinois won the Big Ten conference championship by winning all the conference games that were scheduled for the season, and the Athletic Council recognized the efforts of the men to the extent of awarding twelve major "I's". Gold soccer championship balls were awarded to those who had participated in more than half of the playing time.

The players who received these honors were Captain Chamy, McFadzean, Reynolds, Gasparick, Lewin, Paterson, Byman, Young, Floreth, Simon, Ehnborn, and Fearay.

The scores for the games played during the season were: Illinois, 7—Ohio State, 1; Illinois, 3—Ohio State, 1; and Illinois, 6—Iowa, 0. The team was coached for the second successive season by Hartley Price.

Captain Chamy, who comes all the way from Chile, South America, proved to be a very capable general. Ehnborn was elected captain for the next season, and with eight veterans returning, prospects for 1929 are very promising.
VICTORIES in all meets participated in and third place in the Big Ten meet were the honors reaped by the Illinois swimming team for the 1929 season. Chicago, Purdue, Cincinnati, Wisconsin, Indiana, and Iowa all fell before the superior Illini squad. First place in the diving by Groh, second in the 220-yard and third in the 440-yard swim by Kieding, third in the 220-yard breast stroke by Schroeder, and third in the 160-yard relay gave Illinois its marks in the conference meet. Chicago opened the season and the Manley men won, 56-15 when they won both relays and took first and second places in every event but the 150-yard back stroke. Purdue was met early in the second semester and was defeated, 49-22. Captain Groh far outpointed all his competitors. Winning all but one first, the Illini natators swamped Cincinnati, 52-19.

Garnering 110.7 points, Groh led his teammates to a 42-29 victory over Wisconsin. Indiana was downed and Enochs broke his standing record in the 150-yard back stroke. Iowa provided the finale, and went the path of all others by a 40-31 score.

Heinnie Groh regained the fancy diving crown in the Big Ten meet from Colbath, to whom he lost it last year. In the National Intercollegiate meet held at Washington U., Illinois swimmers placed fourth with 11 points. Groh placed second in the diving, Holbrook second in the 200-yard breast stroke, Kieding fourth in the 440-yard free-style and third in the 220-yard free-style, and the Illini won fourth in the 220-yard relay, and fourth in the 300-yard medley relay.
FIVE conference victories gave Illinois an undisputed claim for the conference championship in water polo. This is the second successive year the Illini have been able to lay claim to the title, last year having shared honors with Northwestern in a tie for first place. The Illini finished the season with victories over Chicago, Purdue, Wisconsin, Indiana, and Iowa and every game played was won in a decisive manner by Coach Ed Manley’s players. Chicago was the closest contender but was easily taken care of in a 5-2 victory for the Illini.

With experienced veterans back at the opening of the season, Coach Ed Manley built a team that was even stronger than the 1928 edition. With Captain Webster and Groh at forwards, Isenberg as goal guard, a formidable combination was worked up. Stout was also used as a forward, while Kieding, Sweetman, Frank, Schroeder, and Barry were used throughout the season in the guard position.

In the opening contest with Chicago, Frank and Stout each with two goals, and Groh with one, gained a 5-2 victory for the Illini. Isenberg, playing a good defensive game at the goal, aided the Illini in beating Purdue, 7-1.

Wisconsin was shut out 10 to 0, with Groh scoring five goals. Captain Webster was second with three goals, and Stout was third with two. Indiana was next and trod the path that all the other Illini opponents had taken and went down in defeat, 6 to 1. Heine Groh took off high scoring honors again, getting five of the six points to his credit, while Stout garnered the other point. In the final contest with Iowa, the Illini won their fifth dual meet and also the conference championship when the Hawks forfeited the game.
FOR THE FIRST time since 1912, the Illinois gymnasts, coached by Raymond Heidloff, won the Big Ten title at the conference meet held in the Old Gym on March 8 and 9, chalking up 1143.85 points to their credit.

By taking margins in the side horse, flying rings, parallel bars, and tumbling, the Varsity gymnasts proved their all-around scoring ability, and their lone first, which went to Oeler in the side horse event, made the old password of the Illini, “a team of average men,” a bit more to be believed.

The gymnasts took down all opponents during the season in good order. Iowa was met in the first contest on February 2, and the Hawks lost by a margin of 118 points, winning only one first in tumbling. The Illini placed Oeler, Danzer, and Jenkinson in the order named in the side horse event. Ohio State was easily taken into camp in the second dual meet, Illinois winning 1218.6 to 116.4. Illinois won honors in every department of the meet.

A seventeen-year jinx was broken when the gymnasts met up with Chicago on February 23, and won the meet 1182.5 to 894.75. Illinois had no individual stars, all the men doing their share towards winning the meet.

In the final meet of the season, Heidloff’s men defeated Purdue by an overwhelming score. Bill Fulton was captain of the gymnasts.
THE varsity fencing team, coached by Herb Craig, brought to Illinois the conference fencing title. Two members of the team, Haier and Schlicher, won conference individual titles, winning the foils and sabre competition respectively. Thirteen points, a new high score record, were run up by the trio of swordsmen representing the Illinois squad.

Of all the duellists participating in the meet, the work of Haier was outstanding. He won all six of his bouts, winning first place medal. Three of his triumphs were 5 to 0 victories, a feat that is seldom approached in conference competition.

The fencers showed up well in all of the dual meets. In the first contest, they defeated Washington University by the score of 13 to 4; Captain Pereira and Haier showed up well. The Ohio State fencers were easily beaten in the second dual contest by the score of 10 to 7. The Illini won the foil and epee matches and tied in the sabre event for the victory. Captain Pereira led his men to a 12-5 victory over the Chicago fencers in the third dual meet of the season. Haier won his match from Friedman, who was conference champion last year. Purdue was met in the last meet and Illinois was victor by a 10 to 7 score. This is Coach Craig's first year as coach of the Illini swordsmen.
"ATHLETICS FOR ALL" becomes more and more a reality as the years roll by, and the 1928-1929 season has proven no exception. More students have participated in every sport held this year, additional events have been added to the program, and more equipment has been provided by the I-M officials. Director Ed Manley and Senior Manager Bill Cameron have successfully carried forward the University student athletic program to the point where the sport activities near a true representation of the spirit of Intramural sports. A new phase of I-M activity is shown by the interest displayed by the officials for the independents, and it is planned soon to install an independent Intramural managership to take care of the increasing interest shown by independent men for athletics.

Here they come—there they go—
The first and last of the circus show—

This is the end. This is the end. 
This the sudden break in the laughter; 
This the silence the years portend; 
The pause between the Before and After. 
This is beauty that poises here, 
This the heart and the head held high—
And this the reason we do not fear:
This is beauty that will not die.

WOMAN’S LEAGUE

WOMAN’S LEAGUE is an organization to which all girls of the University are eligible by virtue of their registration as students. Its function is to serve the varied interests of the University women, and to bind them in closer bonds of friendship. The Orange and Blue Feathers and Gold Feathers organizations help develop the leadership and initiative of the underclass women. Its welfare work is confined to furnishing houses on the campus for girls who are working their way through school. By its twenty-one committees it fosters unity through friendship and community of interests, and trains its members for leadership in student activities and in the outside world.

ORANGE AND BLUE FEATHERS is an organization of the Freshman women for the encouragement of their participation in campus activities. Its membership is open to all Freshmen; but to be initiated, each girl must have 75 activity points and a "C" average. Through the operation of its Loan Fund, Orange and Blue Feathers helps many a needy girl.

Social Chairman

GOLD FEATHERS has as its ideal the development of those qualities of leadership, democracy, and friendship which will enable Sophomore women to become successful campus leaders. This aim, together with the Scholarship Fund maintained for needy university women, has given it a worthy place on the campus.
WOMAN'S LEAGUE TEA

EVERY Wednesday university women are brought together by the afternoon tea sponsored by the Woman's League. Programs of dances, readings and piano selections are presented and an excellent opportunity of making friends is afforded to everyone.
DOLL SHOW

THE annual Y. W. C. A. Doll Show held for the orphan children of the Twin Cities was most successful. "A Trip Around the World" was the main theme carried out. Theta Phi Alpha, with the scene of "The Village Store," won first place, and Alpha Omicron Pi, with a scene of "Old Mexico," won second place.
MAY FETE

Each spring W. A. A. has charge of the May Fete, which is a program of group and solo dances constructed around a central theme and presented in the stadium by university women on the Saturday before Mother's Day. The plot of the 1928 May Fete was Shakespeare's "Mid-Summer's Night Dream." More than 300 women were in this twenty-ninth annual event.
THE FASHION REVIEW

MARY TUCKER......General Chairman

THE Fashion Review produced by the Woman's League was a huge success as an entertainment, as well as from a financial standpoint. The proceeds were turned over to the Welfare Committee to purchase furnishings and other necessities for the three co-operative houses, Alpha, Beta and Campbell Cottage.

The Woman's Athletic Association is an organization of university women who are primarily interested in sports and athletics, and whose purpose it is to promote health education and to foster an interest and participation in games and all forms of physical activity which make for mental and physical efficiency.

Since the inauguration of a four-sport season year, the organization has grown until the present roll includes about 200 women.

Interclass sports sponsored by W. A. A. are: hockey, soccer, basketball, volleyball, swimming, baseball, tennis, apparatus, hiking and track. In addition to sports, "Sans Souci," the annual get-acquainted party for all university women, May Fete and various sport banquets comprise the activities of W. A. A. on the campus. The year's work culminates in the final spring banquet, at which time all major awards are made.
MAJOR I. A. GIRLS

Jane McClure
Dorothy McClure
Charlotte Rose
THE highest honor that W. A. A. awards is the Gold Seal, given to those girls who have earned 2000 points through participation in the different sports. This year the smallest number ever to receive a Gold Seal won the award. One girl, Dorothy McClure, merited the honor.

A girl who earns 600 points receives a minor IA; one who earns 1200 points is awarded her major IA. The points are earned in various athletic competitions which W. A. A. conducts throughout the many sport seasons.
Soccer

This is the third season that soccer has been a major sport, and from the standpoint of enthusiasm and fun, it was highly successful. The Seniors won the championship, disregarding rain, mud and the highly touted Junior team that won the championship last year. It was only by consistent team play that they won first place in the double round tournament.
HOCKEY

HOCKEY always summons hosts of ball and stick enthusiasts, especially among the freshmen. This year, after a hard fought battle, the Junior and Sophomore teams tied for the championship. Both teams played consistent games, with a great deal of rivalry displayed. It will be interesting to watch these teams fight for the championship against each other next year.
BASKETBALL

When nearly 250 women turn out for basketball practice, it is a difficult task to get the best individuals and combinations sifted out to make four class teams and numerous "color" teams. This year the Sophomores won the championship after consistent playing.
BASEBALL

BASEBALL affords the feminine diamond fan an opportunity to work off any excess exuberance, and judging from the noise and pep displayed at any interclass game, there are plenty of fans. In 1928 the Sophomores won the championship with an air-tight defense and a hit-and-run offense. The baseball varsity was picked from the best players of the four classes.
VOLLEYBALL

THIS was the first year that volleyball has been offered as a major sport, and judging from the enthusiasm shown, it was extremely popular. The Senior team won the championship, and by doing so, displayed a great deal of co-operation in both defense and offense.
MINOR SPORTS

Bowling, golf, tennis and hiking are the minor sports of W.A.A. and the co-ed students are few who do not become enthusiastic over play on the alleys, the links, the tennis courts and the W. A. A. field. Hiking has proved interesting. To add variety, numerous innovations are offered in the form of treasure hunts, cross-country and moonlight hikes, bacon and egg breakfast bats, and bicycle hikes.

CLOGGING

SELF-EXPRESSION is one of the fundamental needs of man through which he experiences the joy of freedom and rhythm. The dance, through the development of the body, tends to eliminate as many obstacles as possible and to develop love of beauty.
AESTHETIC DANCING

THE dance creates an appreciation of the artistic, stimulation of the imagination, and refines the emotions and the social side of the individual, resulting in a keener understanding of the world, a more sympathetic and finer person.
Here they come—there they go—
The first and last of the circus show—

There are charmers with elegant snakes
And clowns to roll in the sawdust ring,
Beasts to roar till the white tent shakes
With an expectation of anything;
There is a fever the big top knows
Besides the fever that starts the show,
And the ringing blast the clear horn
blows
Echoes the glory of long ago.
ACTIVITIES
THE ILLINI BOARD OF CONTROL

Board of Directors
Prof. H. T. Scovill, Chairman
Prof. O. A. Leutwiler
Dean A. J. Harno
Alice McGinty
J. R. Larson
Asst. Dean F. H. Turner
W. A. Heinze
R. A. Connor

The Illini Board of Control was organized in 1908 for the purpose of appointing the editors and business managers of The Daily Illini as well as to determine matters of general policy. It has been so successful in its operations that it now has supervision over all publications on the campus and owns all publication property. The board is composed of four faculty members and four student members, the latter being elected by popular vote, two every year.

This body has raised the standards of the publications by its impartial selection of the student editors and managers and by encouraging them to use their originality, initiative, and executive power in their work rather than dictating to them in such matters. While there was originally some doubt as to the benefit of such a board it is now recognized as one of the largest factors in the recent development of publications on the campus and as such holds the respect and admiration of all the students.
THE ILLINI PUBLISHING COMPANY

V. L. KRANNERT

THE Illini Publishing Company, regarded by many as the greatest student publishing company in the world, prints all the campus publications except the ILLIO, and employs a business manager to advise all student publication managers. It operates its own printing plant in the basement of the Illinois Union Building and employs full-time men who print the Daily Illini after it is made up every night by student news editors, copy-readers, and proof-readers.

By thus combining all publications in one organization, the more successful ones help the weaker until the latter can attain a firm foothold. A company of this size can also afford to employ a capable manager to give the student editors and business managers practical advice.

This system of conducting student publications has been so successful that many other universities have patterned their publishing organizations after the Illini Publishing Company.

INDEPENDENT ATHLETE'S BANQUET
ONE year ago a small group of unorganized men revived the idea of bringing the vast body of non-fraternity men into closer contact with the activities of the campus. It was not a new undertaking, but one which these men believed could succeed if organized with a view toward active participation for everyone. None doubted that the possibilities of such a movement were vast. But many observers questioned whether, lacking fraternal ties, it could succeed.

The Independent Council, under the direction of a cabinet of five, drawn from the ranks of sixty senators, has already begun to prove itself an answer to that question. It has aided freshmen in registering and directed them in campus activities; it has conducted a series of bridge, billiard and athletic tournaments; aided the intra-mural department by organizing non-fraternity teams; sponsored dances, smokers, and social dinners; and given banquets for victorious independent athletic teams and non-fraternity letter-men. In this way it has brought three thousand unorganized men into contact with the activities of the independent body.

With this record of past undertakings and an enlarged, more extensive program for the future, it is scarcely pure optimism which prompts the independent man to believe that the council is a permanent, highly successful organization.

razil Nuts,' the nineteenth annual Pierrots production was staged March 22 and 23. The production was a brilliant success and was cleverly acted under the direction of J. W. Swanson. Douglas Considine, '29, and S. B. Adsit, Law 1, wrote the book and the lyrics; the music was arranged by W. Donahue, '23.

The curtain rises on a colorful scene in a Brazilian cabaret with Pedro, the proprietor, excitedly preparing for the evening's entertainment since George Wright, a noted American actor, is to be his guest. In Wright's party are Joan Weston, whom George loves, her brother John, who opposed the love affair, Dolores Bastelar, and Richard Poodle, John's valet and counselor-in-love. Amid the gayety of entertainers, Spanish chorus girls, and soldiers, who have come to suppress a bandit uprising, an amusing triangular love affair develops between Poodle, Pedro, and the coquettish French waitress.
The second act opens in the garden of the cabaret. John has succeeded in breaking up the love affair between his sister and George, but in the meantime has himself fallen in love with Dolores. The bandits, who have lured the soldiers away from the city, enter. The leader orders the women to go with them or see their lovers shot.

The last act, which takes place in the cabaret ballroom, is crowded with action and suspense. For a moment it seems they may succeed in freeing the men without sacrificing themselves. Joan tricks the bandit leader into thinking she really loves him. But he discovers the deception and angrily orders the men shot. Through an unexpected quirk of fate, the inevitable happy ending is brought about.

The questions which were debated this year are: Purdue and Knox debates, “Resolved: That the Senate of the United States should ratify the Paris Peace Pact without Reservations.”

Northwestern debate: “Resolved: That the Senate of the United States acted wisely in ratifying the Paris Peace Pact without Reservations.”

UNDER the coaching of Professor Yeager, Miss Whiteford, Mr. Roberts, and Mr. Baker, the Varsity Debate Teams have again admirably represented the University of Illinois. Beginning the second year of the Western Debate League, which includes representative teams from all of the Big Ten Schools except Chicago, Illinois has met Purdue and Northwestern in triangular debate. The women’s team under Miss Whiteford’s coaching won the decision of the Purdue debate and lost the decision in the Northwestern debate. The men’s team under Mr. Baker duplicated the victory over Purdue and were defeated by Northwestern.

With this triangular organization for the debate schedule it allows every team in the conference to meet every other team every two years.

Two open forum debates which were held at Knox College were coached by Mr. Roberts.

TERPSICHORe ruled beneath blue Egyptian skies at the New Gymnasium on the occasion of the annual Junior Prom. More than 600 couples glided, hopped and swayed amid the ornate surroundings to Bobby Meeker's popular orchestra of Chicago. There was an impressive promenade led by the class president and the committee chairman. The evening became more gay as the hour became later. Elaborately dressed girls and sleek haired boys laughed, danced and applauded. It was one of the best of all the University social functions.

THREE bands are maintained by the University of Illinois, the Concert, First, and Second Regimental Bands. These in reality are divisions of the "greater" Illinois band, which has a membership of more than 300 musicians. From the three divisions are selected members of the University Football Band, which supplies the pageantry each fall in the Memorial Stadium and which makes out-of-town trips with the Varsity Football team.

Professor A. A. Harding's policy in directing the musicians, however, is not to build up a marching band primarily but to develop a musical organization of symphonic proportions. Thus the function of the Regimental Bands is to train men for promotion into the Concert Band, a group of selected musicians organized for the purpose of studying and playing higher forms of music. Each year the Concert Band follows a heavy musical schedule, including an annual tour of midwestern cities.

Service in the bands takes the place of required military drill and tactics.
CONCERT BAND

MILITARY
MILITARY instruction at the University of Illinois is based on the Land Grant Act. The State accepted this Act and the grant of land provided thereby on February 28, 1867. A plan for the Military department was adopted by the Board of Trustees in November, 1867, on recommendation of a Committee which said in its report “while the effect of this department will be to scatter through the State a body of men, so far advanced in military work, that, in case of war, they will furnish skilled officers, ready to drill and lead the military forces of the country. It is the opinion of many experienced educators that the introduction of military drill and discipline is of positive value for their educating influence. They will materially assist in the government of the institution, and tend to form those habits of order and punctuality, for want of which so many educated men fail of usefulness and success.”
The present military curriculum for the Reserve Officers Training Corps was adopted by the University Senate soon after the war and approved by the Board of Trustees. The advantage of this military training to the Nation, the University, and the students participating has been obvious through the years. It is a service to the Nation and the State to prepare officers in a civilian atmosphere. It is to the advantage of the University because such training interests the people at large and impresses them with the belief and desire of the University to train young men for this as well as for other lines of public service. It is an advantage to the student because it has an educational value in the development of his character and because the study of mathematics and engineering from the military point of view is as truly an educational process as the study of these subjects from the point of view of the civil or mechanical engineer.
SINCE the beginning of time man has had to maintain his existence through his own exertions. Human nature as well as all nature is built upon the theory of the survival of the fittest. As with nature, so with nations, to survive sturdiness is a prerequisite. Sturdiness in governments comes by being in a position to utilize the manhood available if the need therefor arises. The World War found the United States woefully lacking in trained officers to lead its men. The Reserve Officers’ Training Corps needs no justification, it is the natural cure for a recognized deficiency. It trains officers and places them in reserve in case of need. Illinois takes a leading part in this national undertaking.

The University Brigade, in existence for the past sixty years, possesses the equipment and is imbued with the spirit which insures success in its endeavors.

C. W. Weeks
Commandant

J. A. Holly
Lt. Col. U. S. A.
Adjutant
THE BRIGADE

Among the benefits to be gained from membership in the University Military Brigade are those which arise peculiarly from military training. Chief among these are habits of obedience and discipline, and the desire to work cooperatively with other men. In no other department or extra curricular activity are these to be so effectively combined and taught.

The theoretical work in the six units of the Brigade is no substitute for purely academic work, although it does supplement it. The physical benefits are not suitable substitutes for a course in Physical Education; nor is the training gained by commanding a group of men an equivalent of the teaching in a Public Speaking course. However, the combination of these produces more than their mere constituent parts; it produces an appreciation of the effectiveness with which they can be combined, both in individuals and in groups of people.

BRIGADE reviews are held several times each year. On one occasion the unit was reviewed by the visiting Legislators from the State Senate and House of Representatives. The second review of the year is on Military Day, when the entire Brigade, lead by the First and Second Regimental Bands, is reviewed by the newly commissioned Officers of the Reserve.
B. F. Rose, a graduate of New Mexico Military Institute, was awarded the University Gold Medal in 1928. The award was given for Military excellence shown in the annual competitive drill.

F. J. Rose, a graduate of Northwestern Military Academy, won the Hazelton prize medal in 1928. Excellency in Military appearance, carriage, and execution of the school of the Soldier was the basis of the award.

The Francis J. Plym Fellowship in Architecture

THROUGH the generosity of Mr. Francis J. Plym, of Niles, Michigan, a graduate of the University of Illinois of the class of 1897, the trustees have established a fellowship for the advanced study of architecture. The stipend attached to the fellowship is one thousand dollars. The winner is required to spend a year of study and travel in Europe. The fellowship is awarded annually by competition in architectural design. Won in 1928 by Granville S. Keith.

Prize Winner, 1928

BY G. S. KEITH
HONORS

Each year the University of Illinois rewards the members of the graduating class, who, during their junior and senior years, have sustained excellence in scholarship, by casting their names on a bronze tablet which is placed in the Administration Building. The following were honored in 1928:

Sylvia Bach
Charles Hodes Bennett
Alfred Theodore Blomquist
Joseph Eugene Charles
Paul Bernard Currier
Frances Ferguson
John Joseph Givvons
Dorothy Lillian Hussemann
Henry William Knerr
John Vytautas Kurtinaitis
Genevieve Mary McConnell

Helen Fern Melvin
Hubert Edward Nelson
Edward Bernard Noel
Lawrence Marion Noel
Helen Renker
Helen Peabody Robbins
Vernon Theodore Stoutemyer
Edward Fillmore Todd
Vida Lois Trager
Martha Jean Ziegler

Each year two civil engineering seniors who have maintained all-around excellency are awarded the Professor Ira O. Baker Prize of $75 and $25 for first and second places respectively, and their names are cast on a bronze tablet. The 1928 winners were Frank H. Beinhauer, first, and Marvel F. Lindeman, second.

HONORS

SKULL AND CRESCENT fraternity awards a cup at the beginning of each semester to the national social fraternity that made the highest scholastic average for the preceding semester. Alpha Kappa Lambda was awarded the cup for the fall semester, 1928.

The American Institute of Architects offers each year a medal to the senior in the Department of Architecture whose development during the four years' course is the most consistent and best. The award is based upon scholarship in all the work during the course, the purpose being to prevent over-specialization in design. The medal was won by Richard F. Voell in 1928.

The Sachem Trophy is awarded to the social fraternity having the greatest number of scholastic points which are compiled on the scholastic average basis and the greatest number of scholastic points as compared to the preceding semester. Phi Kappa Psi won the trophy for the fall semester of 1928.

Page 397
Here they come—there they go—
The first and last of the circus show—

This is the last. This is the last.
There is a tune we can’t recall.
There were faces within the past
And darkness covers and hides them all.
Their is the way of the gypsy-going,
They are the shadows on dim parade,
But they were here, and the night
wind blowing
Still remembers the songs they made.

In Chicago—Stay at team headquarters

HOTELS WINDERMERE have repeatedly enjoyed the patronage of out-of-town athletic teams—as they have always had the privilege of serving university people.

The refined atmosphere—the famous cuisine—the high standards of Windermere service appeal particularly to the good taste of such guests. When the Fighting Illini come to Chicago to play, why not make your residence near them? Why not stay at the rendezvous of your college friends? In no other way can you enjoy such advantages as Hotels Windermere have to offer you.

Hotels Windermere

“CHICAGO’S MOST HOMELIKE HOTELS”

56th Street at Hyde Park Boulevard—Phone Fairfax 6000

OFFICIAL HOTEL INTERCOLLEGIATE ALUMNI EXTENSION SERVICE
YOU are standing on the threshold of a new endeavor...a new experience. Within a few short weeks, all the hopes and expectations which you have held during your years of study and intensive training will be crystallized in the parchment that you receive acknowledging your right to enter your chosen profession. You are fortunate in starting practice in an age when science has done so much to help the dentist of today, and when so many forces are at work to make dentistry a profitable and pleasant occupation.

Ninety percent of the dental graduates of the world deal with Ritter dealers and buy Ritter equipment. There must be a very definite reason for such an expression of faith. That reason is—that Ritter equipment has been worked out to meet the exacting demands of a specialized profession.

Interview a Ritter dealer. Learn about our office planning service...our aids, free to you, in planning and decorating your suite. Let a Ritter dealer help you select your location. Take his advice about equipment. He will be frank and honest with you, and seriously interested in your every problem.

The price you pay for success will be measured by the hours you produce. Dental equipment plays an important part in your daily program. Defective equipment means lost time. Ritter equipment is trouble-proof. It is the line that abides with you, helps you, and helps to create satisfied patients.

Values must be judged in terms of service...Ritter equipment renders a service in use that defies duplication.
Your Dental Cabinet

YOUR dental cabinet should be a credit to your skill and your profession, and it is very important that the appearance of your equipment should make a good impression on your clients.

No better dental cabinets are made than American, and 75 per cent of all cabinets in use today are of our make.

The new Console Dental Cabinet No. 150 shown is a beautiful example of the cabinet builder's art, and in addition has many unique features not found on other dental cabinets.

Our goods can be purchased from the dealer with other equipment on one contract on easy monthly payments. We will demonstrate our line in your city and hope to see every member of the Senior Class.

The American Cabinet Co.
TWO RIVERS, WIS.
The Confidence That Comes of Proper Environment

When your first prominent patient presents himself at your office what will your feeling be? Will your equipment and environment be such as to inspire you with a confident, successful attitude, or will it be so unattractive as to cause a feeling of uncertainty and doubt in your own mind as well as in the mind of the patient?

The importance of "first impressions" cannot be minimized. A Dentist's success does not depend altogether upon modern appliances and pleasant surroundings but they help tremendously. Most of your patients will have but slight knowledge of dental procedure. Their judgment of you as a Dentist will be largely founded on your personal appearance and that of your office.

Our equipment service consists partly in designing and installing "practice building" dental offices—offices that reflect the owner's ability to render superior dentistry. But this is not always enough. The young man starting into practice is apt to need something more. He may need help in finding a location, in planning his office, in securing a clientele, in installing proper accounting methods or in solving other of the many problems arising in the practice of dentistry.

During the past twenty years we have helped a great many of the graduates of your school to establish themselves on a successful basis. You, too, may avail yourself of these sincere and friendly services merely for the asking and without any obligation on your part.

When Stepping Out

into the business world remember that you will often require printing in some form.

Remember also

... that no matter where you locate, there is, in Chicago, an organization with over forty-seven years' experience in the production of quality printing.

... that that organization is prepared to handle your entire requirements in this great field of progress, including the working out of ideas, preparation of layouts, text, finished drawings, engravings, etc.

... that they will produce the finished product as only real craftsmen should.

... that they specialize in the production of folders, booklets, catalogs, and everything in the line of tickets... anything numbered... as well as the making of maps of all kinds.

... that most of all, that organization knows well the meaning of "service," for it was the rendering of service together with the quality in finished product that has made possible the large number of satisfied customers, many of whom they have been serving during the entire period of its business life.

... that the organization above referred to is

Make Your Practice Pay Better

Thousands of dentists find doing their own X-Ray work promotes systematic methods...accurate diagnoses...elimination of errors.

There used to be more argument than now regarding the value of a dentist doing his own X-Ray work. That was before Dr. Coolidge (inventor of the Coolidge tube) perfected the CDX.

Now thousands of dentists have installed the Victor CDX. They are finding it increases their production by promoting systematic methods, by insuring accurate diagnoses, by eliminating a large proportion of errors.

These dentists, since owning the Victor CDX, have improved month by month in their radiograph technique. Through constant and increasing use, they have educated themselves in this important phase of the profession.

And this course of education has not been an expense but a profitable investment.

Costs nothing to investigate

You may think you "can't afford to bother with X-Rays." But that's what hundreds of dentists have said. Then they looked into the matter more thoroughly. Now these operators cheerfully admit that owning a Victor CDX has made them better dentists...has paid them dividends in cash and in prestige.

It is so easy to own a Victor CDX. Don't let "cost" worry you. Make us show you that it needn't be considered. Just ask us on the convenient coupon to send you all the facts.

VICTOR X-RAY CORPORATION
Dental Department CHICAGO
A GENERAL ELECTRIC ORGANIZATION

[Blank space for coupon]

Victor X-Ray Corporation
Dept. A
2012 W. Jackson Blvd., Chicago

Please send booklet and full information on the Victor CDX.

Name: ____________________________
Business Address: ____________________

$100 down payment puts the Victor CDX in your office. The balance is payable in 25 easy monthly payments.

Compactness is another feature in the design of the CDX. Requires no floor space, as it is mounted on the wall and out of the way when not in use. The restless patient doesn't worry the dentist who uses a CDX, for he knows it is 100% electrically safe.
Health-O-Meter

Daily weighing, at home without clothing, is going to prevent excess weight from slowly undermining your health, efficiency and ability to enjoy life. KEEP FIT! A Health-O-Meter in your bathroom is the barometer of health.

Full capacity 250 lb., graduated by ½ pounds, and guaranteed to give satisfactory service. Handsomely finished in a variety of shaded colors with nickel-plated trim and inlaid cork mat.

ILLINI TROUBADOURS
WILL PLAY AT
CHANNEL LAKE-
PAVILION
Summer's Favorite Dancing Center
ANTIOCH ILL.
JUNE 22ND TO SEPTEMBER 3RD

THIS familiar amusement center has every facility for vacation enjoyment. There will be dancing every evening except Monday, as well as afternoon dances on Sundays. Sorority girls and their friends will find ideal environment at the Channel Lake Sorority House, where they may entertain their callers in a large lobby which extends the entire length of the building and affords an excellent view of beautiful Channel Lake.

All recreation facilities are available — golfing, boating, swimming, horseback riding, etc. Interesting trips may be arranged to the various lotus beds and other spots of interest.

The rooms are airy and cool. Wash-rooms with running water and electric irons add to your comfort, and food shops are near by. Rates are very reasonable, being only six dollars per week, or if you desire to stay for a shorter period, one fifty per night.

The location is convenient to all modes of transportation; railroad connections over the Soo Line to Antioch, or direct by the North Shore route and Bus Line to the Sorority House door; or should you care to drive, the Sorority is but 55 miles from Chicago on Route 21.

For advance reservations or additional information address Mrs. W. O. Winch, Channel Lake Sorority House, Antioch, Ill.

A House of Chemical Engineers
In Service to Industry Since 1887

SPECIALIZING IN:

Water Problems Encountered in Steam Production
Laboratory analysis of water supplies and study of operating conditions for power plants and railroads the world over. Production and supply of the proper treatment to overcome corrosion, scaling and foaming.

Lubrication
Lubricants adapted exactly to every type of industrial equipment. A Dearborn Oil holds the world record of 92,000 hours of practically continuous operation without change in a turbine.

Prevention of Rust
NO-OX-ID, developed in the Dearborn Laboratories, is in trusted service for the government and on tens of millions of feet of oil pipe line; it is used by 116 railroads, and quite generally throughout industry.

Associated Conditions
Services on associated problems of scaling and corrosion. The Company produces also Dearco Motor Oils and Dearborn Cleaners. One of these cleaners will remove grease from concrete.

Now or at any future time, we invite you to call upon us when we can serve you on any of this work.

The Problem of Young Men's Clothes

is one to which we have given a great deal of thought. For years we have enjoyed the privilege of making clothing for college men and it is very gratifying to see the large number of them who have grown up in the business world and who continue to buy Jerrems tailoring because they know they always get dependable quality at prices they know are right.

A complete line of ready-to-wear English Top Coats. We suggest an extra pair of Knickers for Sport Wear.

Victor...leading its field
built an adding machine like a watch

STURDY...COMPACT...OF STAMPED METAL PARTS...AND SOLD IT AT A LOW PRICE

$75 AND MORE
6, 8 and 10 columns, including direct subtraction models.

A COMPLETE departure from out-worn traditions produced the first portable adding machine—of unquestioned quality—at an amazingly low price. It was a Victor—built, like a watch, of stamped metal parts; it was compact, light in weight, with a case of steel. The aggressive, vigorous leadership which produced that first Victor, is maintaining Victor's supremacy today....the buyer of the present-day Victor buys unquestioned quality for $75 and more—and receives the benefit of features which many higher priced machines do not contain. A Victor on Free Trial from any Victor Agency!

VICTOR ADDING MACHINE CO., 3900 N. Rockwell St., CHICAGO

VICTOR STANDARD ADDING MACHINES
Who Will Make Up Your Mind?

The trained man in any profession or trade is the man who selects his tools—or equipment. He undoubtedly knows best how he will apply his knowledge and skill, and, therefore, he should know—better than anyone else—what he will require in equipment.

Very soon you will turn your thoughts and attention to the selection of dental equipment for your office—and the importance of your decision cannot be emphasized too strongly.

You will be approached, no doubt, by many types of salesmen, each endeavoring to sell you his line of equipment. Some of them will strive, through one means or another, to get your signature on the dotted line immediately without occasion to inspect any other line—it is their job to make up your mind.

Most obvious, then, is the necessity of deliberating and wisely deciding—making up your own mind—whether this equipment or that equipment will best suit your needs.

It always has been the policy of The Harvard Company not to rush the dentist into a sale—but to invite open inspection, demonstration and comparison of Harvard Equipment with any other line.

We urge you, before you buy, to carefully examine every line of equipment and compare it point for point with every other line—then use your own good judgment in making up your mind.

Any Harvard Dealer will be glad to demonstrate Harvard Equipment

More Than a Clerk Was Awakened

The young clerk stirred restlessly in the bed in the general store of the pioneer village, sat upright and peered through the window.

He could hear familiar voices of the night... the scream of a panther from somewhere up the river... the startled barking of Indian dogs on the nearby reservation... but that which had awakened him was more insistent.

It was the rhythmic "whang, whang, whang!" of a hammer on an anvil.

In the dim light of his shop across the street the blacksmith was busy—a giant of a man, swinging a heavy hammer unceasingly.

"What a man for work!" exclaimed the clerk.

All around the village, folks were talking about the blacksmith—how he had come from Vermont with only $73, and a kit of tools; how he had built a forge of clay and rock on the day of his arrival and repaired the broken pitman shaft that was delaying important work at the saw mill; how he had stepped in and done all the iron work on the new grist mill, and how he was "working himself to death" over his new ideas about plows.

Many folks called this blacksmith a visionary, but the young clerk watched him admiringly.

Years later, after he, himself, had become a prominent manufacturer, this former clerk wrote:

"John Deere in his early experiences would make a plow and then go out to a farm and give it a trial.

"If the plow did not work exactly to suit him, he would bring it back, take it to pieces, change the shape of the moldboard and try it out again.

"I would hear him hammering at ten o'clock at night when I went to bed at the store, and at four o'clock in the morning his hammering would wake me up; he had such indomitable determination to work out successfully what he had in mind."

More than a clerk was awakened by the zeal of John Deere as he worked, regardless of the hour, perfecting his plow. That which came from the hammering on his anvil awakened the agricultural wealth of a nation—the wealth which awaited the coming of the steel plow—and founded the great organization which today builds and sells John Deere quality equipment for every farming operation.

AMERICAN INSTITUTION

AIMS AND IDEALS OF A GREAT SERVICE

The ideal aim of the Bell Telephone System is a telephone service for the nation, enabling, at all times, anywhere, to pick up a telephone and talk to any one else clearly, quickly and at a reasonable cost. This statement, quoted from a recent address by Walter S. Gifford, President of the American Telephone and Telegraph Company, defines the policy of the Bell System, of which the Illinois Bell Telephone Company is a part.

In pursuit of this objective there has been established a great, nationwide network of communication built and extended in the spirit of service to the public and without undue profits to any one. In this spirit we are constantly setting higher standards of service and striving to reach them.

The Bell System accepts its responsibility as a public trust. Its duty is to provide the American public with adequate, dependable and satisfactory telephone service at the lowest possible cost consistent with financial safety.

Illinois Bell Telephone Company

One Policy—One System—Universal Service

MOSER

"The Business College with a University Atmosphere"

Prepare for a business career at the only Business College in the West which requires every student to be at least a four-year High School graduate. Beginning on the first of April, July, October, and January, we conduct a special, complete, intensive, three-months' course in stenography which is open to

College Graduates and Undergraduates Only

Enrollments for this course must be made before the opening day—preferably some time in advance, to be sure of a place in the class. Stenography opens the way to independence, and is a very great help in any position in life. The ability to take shorthand notes of lectures, sermons, conversation, and in many other situations is a great asset.

WHERE A BUSINESS ATMOSPHERE PREVAILS
Perhaps it is because present-day conveniences enable women to feel more cheerful about kitchens that these rooms have dropped drabness for cheerful color. Such conveniences, for example, as the Crane combination sink and laundry tray. Seen here in a thrifty Dutch setting of painted wall-paper and tiled floor, it is thrifty of steps, time, money. It costs much less than two fixtures, and it saves many trips to the basement laundry. The nickel-silver drainboard shifts over tray or sink and is removable for carrying dishes. Crane Exhibit Rooms are well stocked with other suggestions for kitchen and bathroom decoration and equipment. Visit them. Write for the illustrated book, New Ideas for Bathrooms, with color schemes, floor plans, wall elevations. About lasting Crane economy, ask any responsible plumbing contractor.

Crane
Fixtures, Valves, Fittings, and Piping, for Domestic and Industrial Use
Crane Co., General Offices, 536 S. Michigan Ave., Chicago • New York Office, 21 W. 44th St.
Branches and sales offices in one hundred and eighty cities.
THE passing years in Illini history have seen many great achievements of loyal men and women. Taking its place among them is The Illio of the class of 1930. It stands as a fitting tribute to the ingenuity and industry of those who built it. Staff members will experience a great deal of satisfaction and pride in such successful culmination of their work. The Manz Corporation shares in this pride, as it has been our privilege to make the engravings for The Illio—and to print it.

For sixty-two years Manz has developed—until today it is the largest complete printing establishment of its kind in the country. Here everything required for the complete printed job—from Idea to Finished Product—is produced under one roof.

For years we have been cooperating with student staffs and faculty advisors in the preparation of year books. They have found it profits them to take advantage of Manz creative service in the initial stages of the work.

YOUNGER COLLEGE MEN
ON RECENT WESTINGHOUSE JOBS

The Fisher Building

Where do young men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

In architectural beauty and in completeness of accommodations for all classes of business and professional activities, Detroit’s new Fisher Building has been pronounced ten years ahead of the times.

An important feature of its advanced development is the Westinghouse elevator system which serves the 26-story tower and the 11-story wings. Twenty-five elevators are installed, all with automatic control which brings each car to a smooth stop exactly level with the floor every time. A master control system, in addition, enables the chief operator to advance or retard speeds from his own station and to maintain accurate service schedules.

Lighting equipment, installed under the largest contract of its kind ever placed, is equally advanced. More than 12,000 Westinghouse Sollux units give light without glare throughout the entire structure.

Pumps and ventilating fans are driven by Westinghouse motors.

The complete electrification of the Fisher Building is the sort of a job that must go to an organization large enough to handle it. Westinghouse offers young men a type of opportunity that appeals to those with enterprise and talent.

The story of Mickelberry’s Old Farm Sausage is well known to the people of Chicago and vicinity.

We enjoy a very wonderful success in the manufacturing and marketing of Mickelberry’s Sausage and because of this, believe we are making as fine a pork sausage as can be made.

Mickelberry’s Sausage is made only from selected cuts of the finest of corn-fed hogs—carefully blended, delightfully flavored with a secret Southern seasoning—which has been in the Mickelberry family for over two hundred years—packed for marketing under the most careful supervision of men trained in the manufacturing of high-grade food products.

Mickelberry’s Sausage is served on the dining cars of all our leading railroads—in the dining rooms of our best hotels and most exclusive clubs, also the foremost of our restaurants.

Mickelberry’s Sausage can be served in many delightful ways—either for breakfast, lunch or dinner.

Try some today and you will see just how good Sausage can be.

A New Idea
“Clothes Joy”

We want to present a new reason for buying clothes. Simply—for the pleasure of it. Did you ever buy a new suit when you didn’t need it but just because you wanted one? If so you’ve experienced what few people have—the joy of buying and wearing good clothes for pleasure alone.

Did you ever buy two pairs of shoes at one time for the added enjoyment of changing often? We buy cars, radios and go to shows for the pleasure involved—why not enjoy picking out and wearing new stylish apparel?

Start now to enjoy clothes—“Make Clothes Your Hobby”! Purchase your next suit with this in mind. You’ll be surprised at the difference!
